**Von Lorena Glass : Echo (English Edition)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Echo (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. The exciting and romantic mix of genresVon Helpful AdviceEcho written by Lorena Glass brings the mix of fantasy, romance and YA genre - a story about the eternal love and heartbreak, interwoven with time travel and quest to find fulfillment. Given the mix of genres and elements found within, this book could be recommended not only for fans of

YA fiction, but also for the large group of general readers that will enjoy its well-written story. The author introduces us to the two main characters, damned by a curse, that are the real tragic figures. Trying over and over again, they are finding each other through the long and turbulent times that last over 1000 years. Each and every time one of them will die, the other lover needs to travel through the time in order to find own soulmate again. Though the journey is long and full of perils, their love will be pushed to the limits, but the themes of eternal love and complete devotion seem managing to win over all the obstacles that lie in front of them two Lorena Glass in his book places the emphasis on the gradual build of story and the relations between two main characters that can be seen as an additional reason why this novel could be enjoyed by broader audience, not only by young adult readers. Because of the authors style and the imaginative manner in which she tells her story, the reader will be slowly drawn into it, eager to find out what lies ahead up to the very end. In the end, with an open ending that Glass seems intentionally made, author leaves the possibility to write a sequel, building suspense and excitement. Therefore, Echo is an example of non-typical YA fiction book, full of different elements, that make Echo a worthy choice for general readers who want to read something exciting, romantic and magical in same time. Overall, Lorena Glass with her Echo managed to write a solid piece of YA fiction, delivering more than the usual offerings. I was given a copy of this book by the author for the purpose of unbiased review, while all the presented information is based on my impressions.

Kurzbeschreibung Echo is the story of two lovers who are under a curse (the story will bear this out). One of them always loses the other, tragically. But the two of them learn to beat the curse: whenever one dies, the other time travels to the lost lover's next (or past) reincarnation. The novel spans over a thousand years, to several different times and places; and it clearly illustrates the risks one will take, the lengths one will go, and the sacrifices one will make for true love.
