Von Georgia Lyn Hunter : Echo, Mine (Fallen Guardians 1.5) (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Echo, Mine (Fallen Guardians 1.5) (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen1 von 1 Kunden fanden die folgende Rezension hilfreich. Totally in love with this series!!!Von Anna KatmoreAfter reading ABSOLUTE SURRENDER by this author and totally loving it, I just had to grab this novella as soon as I got a chance to. And G.L. Hunter certainly didn't disappoint.Echo has woken up from her coma and is working hard to find back to her former active and agile self. She's doing one heck

of a job, only Aethan doesn't seem to notice. He's much too protective of her for her liking and as it seems, there's just the right occasion to convince him that she's capable of more than he gives her credit for. Of course, this wouldn't be a Fallen Guardian book without some demonii lurking in the dark, and neither would it be without some hot, sizzling chemistry between h/H that bears the stamp of Georgia Lyn Hunter. The pace is perfect and the author couldn't have set the scenery any better; wonderfully romantic from the first to the last page. I loved every minute of this extra peek into Echo Aethan's new life together, and I can't wait for the next book to come out in the series. The verdict? Absolutely awesome!!

Kurzbeschreibung After a horrifying incident that left her in a coma for several long months, Echo now has to get used to a different life. As a descendant of a powerful angel, her days waver between training as the new Healer and convincing her mate she's strong enough to match him in life and in bed. A surprise date night gives her the perfect opportunity to do both. But plans have a way of coming unraveled. One disaster leads to another, and Echo accepts that nothing in their lives will ever be normal. But the biggest revelation of the night comes after she kills a dangerous, soul-sucking demonii. Sparks fly between her and her mate, proving that normal is most definitely overrated.
