Von Cherry Adair : Edge of Danger (T-FLAC Psi Unit: Night Trilogy) before purchasing it in order to gage whether or not it would be worth my time, and all praised Edge of Danger (T-FLAC Psi Unit: Night Trilogy):

KundenrezensionenHilfreichste Kundenrezensionen4 von 4 Kunden fanden die folgende Rezension hilfreich. Zh und d!!Von kIch habe bis jetzt alle Bcher von Adair gelesen und die Mehrheit war Spitze! Aber dieses Buch ist sehr fad!!!

Die ganze Zeit geht es darum was er gerne mit ihr machen möchte, wo, wie und wann Seitenlang!!! Und dann geht es darum warum er es nicht tun kann Seitenlang!!! Haben sie es dann endlich doch getan kommen die Vorwürfe und es wird auch nicht besser!! Wie gesagt zh und d!! Zum Glück habe ich vorsichtshalber nur den ersten Teil der Trilogie besorgt, die restlichen zwei lasse ich aus und hoffe Adair bringt bald wieder einmal etwas so spannendes und aufregendes wie Kiss and Tell oder auf deutsch Se Eroberung (seeehhr zu empfehlen!!)auf den Markt!3 von 3 Kunden fanden die folgende Rezension hilfreich. Liked her other books betterVon Ulrike GoldmannThis is without doubt a good book. But I always had a problem with paranormal stories. Wizardry needs a big sensibility, it gets out of hand easily, gives too much power and kills the story. (The only story/stories which don't have this problem are the Harry Potter books, because if everybody is wizard/witch, it's an balance of power again.) Okay, the other books by Cherry Adair were not realistic too (no more than a James Bond), but the paranormal was too much for me.I give 4 Stars because the story was intelligent, fast-paced, witty and linked with a next one. The next one will be paranormal too, but I'll read it anyway.Sorry for my awful English, I'm from Germany ;-)

They were forced to hide themselves. Soon, normal people forgot about wizards and stopped believing in magic. Today, the three Edge brothers (Gabriel, Caleb, and Duncan) carry on the legacy. They are special operatives with the secret paranormal branch of T-FLAC. This is Gabriel's story.Dr. Eden Cahill works in a computer lab within Verdine Industries's main Arizona office. Recently, Eden walked into the lab to find her long time mentor, Dr. Theo Kirchner, dying from gun shot wounds and the prototype of Rx793 "Rex" stolen. As she promised her mentor, Eden destroyed all files and data about Rex. Though Eden let her mentor get credit for just about everything, Eden was the master mind behind Rex's robotic abilities. She had let her curiosity get away with her and ended up with what was supposed to be used as a field medic under military battle conditions. Instead, the madman who took the bot now has a soulless, calculating machine with the capability of doing untold harm to mankind. A bot that looks like an innocent five-year-old boy.Gabriel Edge is the eldest of the brothers. Using his special psi-abilities, he is to knock on Eden's mental door and extract all the needed information about Rex and how to destroy it. However, Eden is somehow blocking him. The only way for Gabriel to get the info is to convince Eden to trust him before an unknown rogue wizard uses the bot he stole to create havoc. At the same time, Gabriel must protect Eden from the wizard. If Eden dies, all hope is lost.***** OUTSTANDING! This is the first of a trilogy about the Edge brothers. The second story, "Edge of Fear", will be released in August 2006. The third story, "Edge of Darkness", will go on sale in September 2006. To make it all more interesting, author Cherry Adair added a special twist that kept me on the edge of my seat (no pun intended). The three brothers are part of a five hundred year old curse. When they find their "lifemates" they must deny themselves of finding love. If they ignore the curse, the women they love die. Guess who Gabriel's lifemate is. Take my advice: Order out for dinner, unplug your phones, snuggle down somewhere comfortable, and enjoy this tale of high drama! *****Reviewed by Detra Fitch of Huntress Reviews.

KurzbeschreibungEven the deepest peril couldnt keep him away from her.As an anti-terrorism operative in T-FLACs classified paranormal unit, the intrepid, ruggedly handsome Gabriel Edge protects the world from the forces of evil. So when an ingenious and extremely volatile invention is stolen from a covert lab in Arizona, Gabriel zeroes in on the brilliant young scientist who helped to create the device. From Gabriels first contact, Eden Cahill leaves an indelible impression.Using a mysterious telepathic power as ancient as his Scottish heritage, as well as his seductive physical charms, Gabriel must infiltrate Edens mind to uncover the secrets she so desperately protects. But Gabriel is in a bindfor the only way to penetrate Edens memories is through one shared intimate encounter that will trigger revelations, shatter lives, and just might save humanityall at a terribly steep price.From the Paperback edition.PressestimmenCherry Adair delivers thrills and sizzle.Jayne Ann KrentzKurzbeschreibungEven the deepest peril couldnt keep him away from her.As an anti-terrorism operative in T-FLACs classified paranormal unit, the intrepid, ruggedly handsome Gabriel Edge protects the world from the forces of evil.
