Von Mercedes Lackey : Elementary (All-New Tales of the Elemental Masters) (Elemental Masters Collection) before purchasing it in order to gage whether or not it would be worth my time, and all praised Elementary (All-New Tales of the Elemental Masters) (Elemental Masters Collection):

KundenrezensionenHilfreichste Kundenrezensionen1 von 1 Kunden fanden die folgende Rezension hilfreich. Magical CollectionVon Stoller BeatIt is fascinating to read various authors with different styles working together in the same fictional universe. Some of the stories make you want to read more of this writer. In a way these cooperations are eyeopeners.0 von 0 Kunden fanden die folgende Rezension hilfreich. Cool readVon Paul ChanaA fascinating collection of nature, power and the elements of life brought together. The stories are well written. Reminds me of the stories in "The Usurper and Other stories". Overall, Mercedes Lackey did a good job, even better than the previous books.

KurzbeschreibungIn March 1987, Mercedes Lackey, a young author from Oklahoma, published her first novel, Arrows of the Queen. No one could have envisioned that this modest book would be the beginning of a fantasy career that would span decades and more than a hundred novels, with no signs of slowing yet.And among Ms. Lackey's many novels, few are as critically-acclaimed and beloved as those of the Elemental Masters. The novels in this series are loosely based on classic fairy tales, and take place in a fantasy version of turn-of-the-century London, where magic is real and Elemental Masters control the powers of Fire, Water, Air and Earth.Now the voices of other authors join Mercedes Lackey to add their own special touches to this delightful alternate history, in a world where magic is always just around the corner...Pressestimmen"Warmth and passion abound in Lackey's second Elemental Masters anthology, which ties in to her ongoing series of novels. The shared universe is thrown open to a wide range of historical urban fantasy stories to build on themes of family, chosen or otherwise, and what it means to use and share the power of the elementals.... Though several stories build on previous Elemental Masters works, new readers will have no trouble understanding the world and its characters. The strength of the anthology comes in the unity and flow of the stories as each one builds subtly toward a gentle, thoughtful point with a perfect blend of emotion and intrigue."Publishers Weekly (starred review)"Once again, Mercedes Lackey has created a rich, lush depiction of England's Elemental Masters, combining elemental magic, fantastic creatures, coming-of-age elements, and the realities of war.... Lackey's elegant wordcraft combines humor with the knife edge of desperation.... I highly advise people to read this book, and I desperately urge Mercedes Lackey to keep writing the Elemental Masters novels."Fresh Fiction"Richly detailed historic backgrounds add flavor and richness to an already strong series that belongs in most fantasy collections. Highly recommended."Library Journal"Fans of light fantasy will be thrilled by Lackey's clever fairy-tale adventure."BooklistKurzbeschreibungIn March 1987, Mercedes Lackey, a young author from Oklahoma, published her first novel, Arrows of the Queen.
