KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. The Feels!Von EmmaI have always loved Harper and she went through such development in the PHD series and now as

she is facing a whole new enemy she needs to find that strength that she once had. It's cool to see her growing throughout the book as she has so much more pressure on her now than she ever did before. She is such a sassy character too and I like her comments and narration plus I love how loyal and compassionate she is, she would do anything to protect her family. Harper is complicated with her witch and demon sides but in this book her powers really come into their own and I love that, such a kick butt character. This creates such great relationships with her friends, I really love her friendship with Zara and Mary Anne. These friendships are so different as Zara is a bubbly happy go lucky yet kick butt warrior and complements Harper in the way she gives her strength and then with Mary Anne they understand each other as they have had similar situations thrown at them. It was great in this novel to hear from Jackson and get a look into his character more, it's beautiful how he has such undying love for Harper and how even though they have secrets they are still there for each other and treat each other as equals. I saw in this novel how much Jackson has grown and how he is the rock that does hold everyone together, in a lot of situations he is the one to encourage Harper to go with her gut plus he is super hot and a kick up warrior demon! The villain is obviously the Order of Shadows and I love how they take such a smart edge in this book, The Emerald Priestess is so smart and not easily fooled which creates for a great dynamic and all the feels! But there is so much more to the villains in this book as the main characters are trying to work out if there is more at play than meets the eye, by the end you realize that something big is going to go down in the next book! I really do like Sarra Cannon's writing and I think it's just gotten even better than her PHD series! It flows so well and it has so many action packed sections that it grips you till the end. I love the way she builds characters and relationships this is where a lot of the story comes from but also the setting makes it so easy to picture this. I really wish I could have some of the jewelry she writes in this series though so cool! I give this 4 Stars! Oh the feels! However I did get some of the story before it happened and that's what makes it not a 5 star book for me. BUT I highly recommend picking up her series they are awesome and you can start anywhere!
