Von David Eddings : Enchanters' End Game: Book Five Of The Belgariad (The Belgariad (TW)) before purchasing it in order to gage whether or not it would be worth my time, and all praised Enchanters' End Game: Book Five Of The Belgariad (The Belgariad (TW)):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Very well done, pure, good, fantasy. Von Ein KundeI read the whole series in a few weeks, and I say it was great. It lacks a bit of power, but is very well written, funny, and much more entertaining with realistic insight than some overhyped fantasy. Good action, romance, human emotions, and a building zenith of events that keeps the pages turning. The only part I had a problem with was how they cut out the best part at the very end. I mean, come on Dave, you know we all wanted to know what happened AFTER Ce'Nedra and Garion got married. And I say that from a comical standpoint. But I still fail to see why fantasy, as well as society, embellishes violence, yet shuns sex. What's up with that? If you can write in detail about death and bloody combat you can surely write about love and sex. The joke with the orb was funny, but I think something much more funny was going on at the time ^_~ And it was also a good character development point, to bad it was to "offensive" to write about. Only other flaw was that travel got a little boring and I would have liked to know more about the universal scream of things, I found that very cool. Despite a few flaws (and every writer has flaws) Eddings is great. Truly great. And if you didn't like it why did you bother reading it. I put a book down if I don't like it and, I sure don't go to a major webpage and say how it sucks. Get a life. And for people who can enjoy good fantasy, read Eddings. Or other authors, there are so many good fantasy novels, if you can stop comparing and read with an open mind, and heart. 0 von 0 Kunden fanden die folgende Rezension hilfreich. junkies unite Von Ein KundeI have gone like a whirlwind through all these books, reading all five of them in less than a week. I feel like a junkie; I need a new fix. The reason I love fantasy so much is because there is always a continuation. A fantasy without a sequel is truly a sordid little thing. Unlike cop novels or romance, which usually follow the same formulas over and over until a hero becomes redundant at best, (Clive Cussler anyone?) fantasies are what remain of epic stories. Read: original and culminative. I love the Belgariad, but not unconditionally. I loved the characters and the emotional rollercoasters. The biggest thing Eddings has going for him is that he neither drowns his writing in flashy images void of emotion nor over-syrups the emotional impact. Basically: not too hard, not too soft; kind of like what Goldilocks thought of baby bear's bed. I didn't like that everything wrapped up so neat. It's like, in a paragraph, we all found out the REAL struggle. I still felt that the heroes weren't ready yet, that the villains were either too distant or too easily pushed aside. Basically, I thought this was rather tame. I mean, if you read some George R. R. Martin or some Robin Hobb, you suffer right there with the characters, which isn't necessarily a good thing. I definitely want to continue with the Mallorean, but I'm not looking for a life-changing experience. But I know it will be more than just a fix to tide me over. 0 von 0 Kunden fanden die folgende Rezension hilfreich. a brilliant end to a fantastical masterpiece Von Ein KundeThis review may be a bit biased, but in my opinion, those who have slated the book should have another go at it. It is important to read the Rivan Codex to be placed in the proper context of the storyline, characterisation etc. That is only if you have dismally failed to realise the man's brilliance at writing. Granted, David Eddings is not the most prolific writer, but in any creative field, you grow as an artist, and he has shown considerable growth in his other series. Enchanters End Game is a book I shall continue to read, and each time, it will provide fresher entertainment to my eyes. To the reviewer who labels Polgara as a "hag" all I have to say is that you are a misogynist who is afraid of a woman in power. With your blatant views on females, I do not suggest reading Melanie Rawn's Exiles trilogy. The story is a good one, the ending not too final, but does not leave the reader frustrated. I think the battle with Torak is well-written, and was not dragged out for long. The battle of Thull Mardu is a well-written piece and for all the clouds out there, it takes precision to stage a battle of that magnitude. I found it delightful reading the battle with the hierarchs of Murgodom. So what if the good guys win??? Was Asharak's victory with Garion's parent not enough to satiate a blood lust?? I have to disagree with the reviewers who have slated the book. I found it entertaining, worth my time, and would recommend this to anybody who wishes to cut their teeth in the fantasy genre. Thanks

KurzbeschreibungBOOK 5 OF THE BELGARIAD, the worldwide bestselling fantasy series by master storyteller David Eddings. Discover the epic story that inspired thousands - from Raymond Feist's The Riftwar Cycle series to George R. R. Martin's A Game of Thrones. On the outcome of one duel rests the fate of the world... With Garion on the throne, peace has finally come to the West. But as long as the evil God Torak still lives, he knows they will never truly be safe. As Princess Ce'Nedra leads her armies in a desperate bid to divert the Evil Ones forces, Garion travels to the City of Endless Night to face Torak for the last time. But one question haunts him: can man ever destroy an immortal God? Pressestimmen "A classic coming-of-age epic" (Christopher Paolini) Werbetext BOOK 5 OF THE BELGARIAD, the original bestselling fantasy series by the famed master storyteller. In the same tradition as Terry Goodkind, Raymond Feist and David Gemmell.
