Von Lindsay Buroker : Encrypted (Encrypted Series Book 1) (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Encrypted (Encrypted Series Book 1) (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen1 von 1 Kunden fanden die folgende Rezension hilfreich. Exciting RompVon Andy W CouchThis was a fun book to read. It is reminiscent of a Hollywood action movie, and this is not at all a bad thing. A little bit of love, a lot of action and danger. The characters are interesting and engaging. It was just

a fun enjoyable read. I like reading a lot of books by the same author and watch how they develop and what ideas come up and they decide to explore different aspects in other stories. There are some themes and scenes that point to Lindsay's latest book called *Torrent*, although that isn't a fantasy. 0 von 0 Kunden fanden die folgende Rezension hilfreich. First part of an introduction... Von Johanna... of two main characters to turn up later on in the *Emperors Edge* series. Not absolutely necessary to read, but some actions and reactions of the characters in the *EE* series become more plausible after reading the *Encrypted* series. 0 von 0 Kunden fanden die folgende Rezension hilfreich. Must read Von Book worm First of a two book series that tells the background story of some of the nicest characters of the *Emperor's Edge* books. But it is still readable as a separate series. Great adventure, alien technology and magic.

Kurzbeschreibung Professor Tikaya Komitopis isn't a great beauty, a fearless warrior, or even someone who can walk and chew chicle at the same time, but her cryptography skills earn her wartime notoriety. When enemy marines show up at her family's plantation, she expects the worst. But they're not there to kill her. They need her to decode mysterious runes, and they ask for help in the manner typical of a conquering empire: they kidnap her, threaten her family, and throw her in the brig of their fastest steamship. Her only ally is a fellow prisoner who charms her with a passion for academics as great as her own. Together, they must decipher mind-altering alchemical artifacts, deadly poison rockets, and malevolent technological constructs, all while dodging assassination attempts from a rival power determined the expedition should fail. As if the situation weren't treacherous enough, this new ally may turn out to be the last person Tikaya should trust. Those runes cloak more than mysteries, however, and he's the only one who can help her unravel them before their secrets destroy the world.
