jenseits des Gewohnten ... Von Dr. Karl Jrgen Roth Paul Green hat sich mit diesem englischsprachigen Lexikon richtig Mhe gegeben. Er bietet uns eine Vielzahl von Eintrgen zu Filmen, TV-Serien, Comics, Bchern usw., in denen Horror-, ScienceFiction-, Fantasy- oder bernatrliche Elemente sich mit den klassischen Westernthemen mischen. Ich habe hier viel Neues erfahren, was mir bislang nicht bekannt war. Der Schwerpunkt der Verffentlichung liegt naturgemss im Bereich der englischsprachigen Medien, es soll aber hervorgehoben werden, dass Green durchaus auch ber diesen Tellerrand schaut und vieles bercksichtigt, was aus Europa oder anderen Gegenden der Erde stammt. Ein kurzweiliges, informatives Lexikon mit zahlreichen ergnzenden Illustrationen, sowie Anhnngen und Index, welches ich nicht missen mchte.

Pressestimmen an eye-opener for fans of the typical all-American, John Wayne western ARBA; in the extraordinarily useful and detailed Encyclopedia of Weird Westerns, Green identifies horrific and supernatural departures and twists over the last 150 years of the Western. A delightful, breezy volume one might read cover to cover. Green s Encyclopedia covers considerable ground... certainly deserving of recognition Ray Merlock, University of South Carolina Upstate, The Journal of American Culture; all-encompassing coverage... a stunning amount of research... Green has done the Western genre a great service True West; a useful and entertaining guide to the mind-bending and genre-blending world that resides outside the mainstream... a handy sourcebook Wild West History Journal; a fine, well-researched and entertaining book Destructive Music; thorough... it is very easy to get lost in the Encyclopedia of Weird Westerns, so make sure to set aside a good deal of time when you pick it up to just look something up. There are plenty of discoveries awaiting, and some old favorites to revisit Green Man ; his coverage is quite inclusive; few media are omitted Communication Booknotes Quarterly; a rich vein for prospectors mining those dusty hills of the Wild Weird West. It s the kind of book I like to dog-ear and write in, and carry along with me, in my urban saddle bag, to refer to often Zombos Closet of Horror; highly recommended Operaphile; this unique volume covers ground that has generally eluded researchers Starlog.
