Consumed by darknessVon LittleDarlingThe "End Of Eternity" series is like an extremely addictive TV show, full of drama, twists and turns that leave me breathless and wanting more. And it absolutely gives me the feels.After some horrible and tragic things were revealed in "End Of Eternity 2", Carmen now has to find a way to come to terms with

the truth she learned. Unfortunately, she doesn't choose the safe and healthy version of letting go - like everybody in her life urges her to. Fed up with being a pushover and a doormat for others, she decides she wants to fight back and destroy the person who has made her life hell. But choosing a path of destruction, hatred and vengeance can't lead to anything good. It will only consume more and more of the good that is still in her life. But she's so fixated on making the one responsible for all her losses pay, that she doesn't even realize what risks are involved and how far she's willing to go. But with Brad, she has an adversary who shouldn't be underestimated. Since Carmen is a good person at heart, she isn't even capable of comprehending his level of darkness. And that's why - with everything she does to bring him down - she unknowingly is tightening the noose around her neck, while putting the people she loves into the path of the darkness and evil that is overtaking her life. Carmen is the best example of a person that had to endure too much. Everyone has a breaking point and hers was reached with the loss of her baby. Not even Owen's pleading and reservations can sway her off her chosen path. To witness her pain and her despair that transform into something darker was heart-breaking. Though I didn't agree with her choices, it was hard not to sympathize with her. I kept on wondering if that poor girl never got a break. The only thing that bothered me about her was how fast she moved on from one man to another without giving herself the time to grieve and for the first time in her life get to know herself. But it just goes to show what many people deal with - the inability to be by themselves. They rather have a crappy partner, than no relationship at all. Owen was extremely supportive and understanding, always there for her no matter what - sometimes loyal to a fault. As in the books before, he was his happy and funny self, but slowly we get to see there is more to him and that his happy-go-lucky personality often serves as a mask to not drive people away with his real feelings and thoughts. His layers are peeled back one by one and though his more somber traits come to the surface, it doesn't take away from his awesomeness. Quite to the contrary - it gives him more depth and allure. But there was one thing he did that was so unlike him, that didn't fit with his character. It made me want to slap him - with a baseball bat. I'm not sure why Loretta Lost chose to take this route with his character in that particular situation, but to me it weakened his character. The plot was as always fast-paced, suspenseful and captivating. And the end just about knocked the air out of my lungs. I can't wait for the next and final installment in the series. 4 losing-to-the-darkness stars.
