Von Viola Rivard : Enslaved by the Alpha: Part Seven (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Enslaved by the Alpha: Part Seven (English Edition):

Viola takes your breath away from beginning to end. Astrid is in her final stages of her pregnancy and Erik has been very attentive to her care. Maybe not in the way of romantic, but as far as food, water and shelter. Is that all that Astrid needs? Does she need

him on a deeper level? Can Erik give her that emotional support she craves? This is a bit different from what Viola has written in the past; however, it is one that you will crave for more. With the bear clan on the heels of Siluit clan will Erik allow Zane and Ginnifer into his land? I loved this series and would love to see more of this harder edge writing from Viola.

Kurzbeschreibung While Astrid struggles to confess her feelings to Erik, the alpha is having a crisis of his own. How can he do what's best for his pack, when his mate has become the most important thing in his life? This is part of an ongoing story, and is not a standalone.
