Second With You is more than just a sappy romance novel. There was so much going on with Harley and Trey, as their exceptional relationship deepens and their love for each other grows. I don't want to spoil anything, but let me tell you, I was surprised more than once. There was a certain situation, where I just thought, I will hate the author for changing the plot in a particular way. I am absolutely sure, I couldn't have handled that. And the solution for it made me adore her even more. I felt truly everything while reading this story not only love, but also anger, hate, fear and especially hope, because without the latter I couldn't have made it through the end. And let's not forget the extraordinary passion between the two lead characters. If you liked The Thrill of It, you have to read this one. You won't be disappointed!
