Von Vince Flynn : Executive Power (A Mitch Rapp Novel) before purchasing it in order to gage whether or not it

would be worth my time, and all praised Executive Power (A Mitch Rapp Novel):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich.
Packender ThrillerVon JCMir gefällt die ganze Mitch Rapp-Serie, und Executive Power ist keine Ausnahme. Obschon ich Vince Flynns "der Zweck heiligt alle Mittel"-Philosophie nicht gutheißen kann - die Geschichten sind kunstvoll aufgebaut, die Handlungsstränge mit ihren Finten so ineinander verflochten, dass ich das Buch erst weglegen kann, wenn ich weiß, wie es denn nun ausgeht. Verfolgt man die aktuellen Vorgänge um den Whistleblower Edward Snowden, so fällt es schwer, nicht an die detailliert beschriebene Spionagewelt eines Mitch Rapp zu denken. Um so bedauerlicher, dass Vince Flynns letztes Buch bereits geschrieben ist: Er erlag Mitte Juni einem Krebsleiden.

Kurzbeschreibung#1 New York Times bestselling author of American Assassin soon to be a major motion picture Bestselling author Vince Flynn the best pure adrenaline-charged action writer out there today (The Providence Journal) puts Mitch Rapp in the crossfire as America's enemies tighten their grip. Returning from a covert mission, Mitch Rapp was publicly hailed by the president for his role in the fight against terrorism. After years of working in the shadows, Rapp was caught in the media spotlight and marked for death by virtually every terrorist in the world. Now a CIA advisor, Rapp is ready to battle terror far from the front lines. But when a Navy SEAL team in the Philippines is ambushed, all evidence points to a leak within the US State Department. And a greater threat lurks: a ruthless assassin working for the most powerful men in the Middle East, who are bent on igniting a world war. With the world watching, Rapp must hold back the flames of Armageddon. From Publishers Weekly Packed with likable characters and undergirded by an in-depth understanding of the tangled politics of the 21st-century Middle East, Flynn's latest spy thriller (after the bestselling Separation of Power) can rightly be termed a post-September 11 espionage novel. Mitch Rapp is the CIA's number one assassin, recently lauded by the president as "the single most important person in America's fight against terrorism." Recently married to a high-profile anchorwoman and given a desk job, Mitch is having a hard time settling into the brain center of the CIA and giving up the gritty end of operations. He can't seem to resist seeking hands-on involvement in his latest assignment: unraveling a murky plot to create a Palestinian state. A mysterious operative, "David," plans to assassinate the heads of the major terrorist groups in the region and pin the deaths on Israel, simultaneously creating sympathy for the Palestinian cause while striking a fatal blow against terrorism, which he despises. Though the novel never strays far from the many conventions of the genre—a cadre of international agents, pedantic bureaucrats, spoiled sheikhs, and a U.S. president and military unfailingly portrayed as noble—Flynn spins an entertaining narrative. Though the book deals with an Iraq still firmly under Saddam's control, it should appeal to Americans' burgeoning awareness of—and interest in—the complex affairs of the Middle East. Perhaps the book's greatest accomplishment is its oblique questioning of the politics of vengeance. "The only way to make them stop is to hit them harder than they hit us," says the leader of Israel's intelligence agency. As Flynn's book demonstrates, the tragedy is that those same words could easily come from either side. Copyright 2003 Reed Business Information, Inc. From Booklist After the events in Separation of Power (2001), Mitch Rapp's identity as a covert CIA operative (read assassin) is more overt than covert, and in the public eye is the last place he wants to be. In spite of his promises to his wife that he'll take a desk job now that his anonymity has been compromised, Mitch doesn't hesitate to tackle another covert mission involving the rescue of a family being held hostage in the Middle East. With his mentor, Irene Kennedy, now heading the CIA and with President Hayes' supreme trust, Mitch has more leeway than ever in his operation, and rather than sit back and watch his team at work, Mitch puts himself on the front line. Flynn's timing with these thrillers is uncanny (even though his reference to Saddam Hussein as a key villain here is a beat or two late). Another explosive tale of international intrigue from a master of the high-concept thriller. Mary Frances Wilkens Copyright American Library Association. All rights reserved
