**Von Annie Jacoby : Exposure: Exposure Series Book One (English Edition)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Exposure: Exposure Series Book One (English Edition):

Kundenrezensionen Hilfreichste Kundenrezensionen 0 von 0 Kunden fanden die folgende Rezension hilfreich. One homebound paparazzi photographer + an altruistic billionaire truly scorching Von Jean Smith I find myself wanting to slap my own hands as I type this review. Can you say a touch of writers block mixed with the temptation to blurt out spoilers? Guess that is why Annie is the author and Im the reviewer. She did an excellent job at teasing out the reasons for CJs bout of agoraphobia. While at times I wanted to say come on tell me what's going on already, the reality is that

CJ couldn't emotionally and mentally deal with the tragedy and cause of her mental illness. Ms. Jacoby showed that in her pacing and sporadic forays into CJ's past. Slowly, but surely you get to the root of the problem and CJ is left to deal with things and learn to move on. Lest you think CJ might be weak-willed or weak-minded, put your mind at ease. Nothing could be further from the truth. Tragedy hits us all very differently and for some hiding or denial is a defense mechanism that is quite uncontrollable. For CJ it wasn't a case of wanting to give up totally and hide away, but rather not knowing how to move forward. Being stuck at home puts the agoraphobic in rather a catch 22. You need help, but how do you get out and get help when the problem you are dealing with is the ability to leave in the first place? Thank heaven for a hot and steamy billionaire that comes to the rescue in CJ's case. With an endless stream of money, the right therapists and health insurance things can work out, at least on the therapy end of things. The relationship, on the other hand, is another matter altogether. Asher Sloane is a high-powered billionaire in the arena of providing alternative energy sources around the globe. From all outward appearances, he is a very altruistic individual, something CJ admires greatly. Asher also has a dilemma what to do with a stalker ex. His solution is to hire CJ to pose as his fiancée, a potential win-win for both of them. The problem? As hot as these two tear up the sheets in their every interaction, Asher expects their relationship to be a ruse only no emotions, no room for love. While one moment you are praising Asher for the help he is giving CJ and his awesomeness as a lover, the next you are cursing him for the very unfeeling approach he wants to take towards their relationship. It's also pretty apparent this man has a past he's hiding. For a photographer with a journalism background, that seems just a bit too much temptation. And here is where I will stop so as not to give away all the goodies. Suffice it to say, the sex is scorching. The story is very compelling and you really feel for CJ. Asher obviously comes to the conclusion that he's in love with her but is it enough when his past comes to light? I will say that this one does not end on an HEA or an HFN. You are left with a bit of a cliffhanger and where you may have thought things were over, you can rest assured they aren't. The series contains four books of which three are full length. The final in the series is a novella. I haven't quite decided yet if I'll pick up the next in the series. The writing is great. The erotic elements are awesome. The story is compelling. I find myself curious to see what has happened with CJ and if the two can get past Asher's past. I'm honestly not sure what is causing my hesitance to pick up the next in the series. If I have to hazard a guess I would say it is the cliffhanger combined with my propensity to read PNR, SyFy, and the likes. When it comes down to it Exposure is a great erotic romance that promises to have plenty of suspense in the next book. Review copy provided via Net Galley in exchange for an honest review. \*\*\*\*\*Reviewed for Xtreme-Delusions.com\*\*\*\*\*

Kurzbeschreibung CJ I'm so sick and tired of the world. All the sh\*t that goes on, I just can't take. Cannot take. So, yeah, I've been hiding for the last six months. Haven't left the house. Thank god Scarlett is there to take care of me, because if she weren't....I'd probably be dead by now. I finally do leave the house, and what happens? Asher, that's what happens. Super wealthy, hotter than the surface of hell, with the grace of a jungle cat. I could just imagine what he would be like in bed. But he's dangerous. I can see it in his eyes. And he's definitely hiding something. Definitely. Why can't I resist him? He's the one my mother would have told me about. If I had a sane mother, that is. All I know is that his lips say trouble, but his body makes mine weep. ASHER I need a woman, and I need one right now. My crazy stalker ex-girlfriend won't leave me alone, so I need a woman to pose as my fiancée so that crazy bitch will finally give up. CJ seems like she's game. She's right for me, too, because she won't ask too many questions. If she starts asking questions, then she'll know how many men I've killed. I can't have that. As long as she doesn't get too close to the truth, we can get along. But if she learns the truth, all bets are off. And that would be too bad, because she's sexy as hell. I've been running, though, and I have to keep running. Because if the world knew the truth about me, I'd be done. Kurzbeschreibung CJ I'm so sick and tired of the world.
