Von Kazuaki Takano : Extinction (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Extinction (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. A bit overdone but still good.Von Dr.Stephan Teichmann.News of an advanced lifeform discovered in the tropical part of Africa filter through to the American Presidential Administration. Spurred by the Heisman-Report on possible dangers for the human race, the President Gregory Burns decides to eliminate any threat to the human existence meaning also

the existence of the United States. A group of 4 mercenaries is selected and trained to search and destroy this new life form. Takano has composed a fast paced thriller touching on the Great War in Congo, evolution, drug research, Echelon, the NSA and chemical synthesis. For my part the actions relating to chemical synthesis are a bit overdone but the rest is quite good. This book contains a lot of action and is a good holiday read, nothing more nothing less.0 von 0 Kunden fanden die folgende Rezension hilfreich. Interessant und spannend bis zum EndeVon KoyaanisqatsiEs gibt natrlich unterschiedliche Ansichten darber wie detailliert ein (Science-)Fiction Buch sein soll - mir hat es jedenfalls bis zum Schluss gefesselt.0 von 0 Kunden fanden die folgende Rezension hilfreich. Spannung pur!Von LolaDas ist ein tolles Buch. die Geschichtige ist echt groartig zusammengestellt. Da ist stndig Spannung dabei und wie die verschiedenen Teilgeschichten zumsammen gefhrt werden super. Die Informationen ber Geheimdienste und deren Handlungen ist aktueller denn je und erschreckend. Toll geschrieben, toll erzht. Deshalb fnf Sterne von mir fr die englische Fassung.

KurzbeschreibungHe is a new kind of human He may mean the end for the rest of us... One bright morning in Washington D.C., the US President learns of a terrifying new threat to national security. Soon afterwards, American mercenary Jonathan Yeager is asked to lead a team into the Congo to eliminate a mysterious enemy - a job which will help him pay for treatment for his dying son.But when they reach Africa, the threat turns out to be a three-year-old child named Akili: the next step in human evolution. The soldiers are under orders to kill the boy before his full potential can be realised. Yet Akili's advanced knowledge might be the only hope Yeager has to save his son's life...With time running out to choose a side, Yeager must decide whether to follow his orders or to save a creature who may not be as harmless or innocent as he appears. Because Akili is already the smartest being on the planet, with the power to either save humanity - or destroy it.[This novel was first published in 2014 as GENOCIDE OF ONE.]Pressestimmen"Michael Crichton fans will welcome Takano's exceptional thriller."Publishers Weekly (starred review)"Takano's action will appeal to Clancy-philes."Kirkus sKurzbeschreibungHe is a new kind of human He may mean the end for the rest of us...
