**Von Glen Cook : Faded Steel Heat: A Garrett, P.I., Novel** before purchasing it in order to gage whether or not it would be worth my time, and all praised Faded Steel Heat: A Garrett, P.I., Novel:

KundenrezensionenHilfreichste Kundenrezensionen1 von 1 Kunden fanden die folgende Rezension hilfreich. The Parrot is enough to Raise the DeadVon Zeta ThompsonThis was actually the first in this series I read. The somewhat

tongue in cheek hard-boiled detective writing style kept me interested. I sometimes had problems remembering when/where this is supposed to take place and kept envisioning Chicago in the 30's with a vastly different population, until he kept reminding me about the horses. (what happened to him with horses anyway?)The story is much lighter than his Black Company series, yet still drives home the problems and weaknesses with being merely human. He examines not only the "wacko" fringe groups in TunFaire, but his own prejudices.The revelation scene comes off like passage from a Hercule Perot novel, but as usual has Cook's strangely warped twists in it. The Parrot actually is useful in this book for things other than getting in trouble.Humour permeates this story, but not to the detriment of the story. The adventure still keeps you on the edge. You will be tempted to read it quickly to see what happens, but I suggest you hold yourself back and savour his prose as well.1 von 1 Kunden fanden die folgende Rezension hilfreich. Garrett and the Parrot REALLY save TunFaireVon Ein KundeGarrett, P.I., is a series I have followed for years. Garret is an ex-Marine who spent time in a Viet Nam type war that dragged on and on consuming more and more young men.Now the war is over and the troops are coming back. The other races, (fairies, dwarves, ratmen, etc.) have taken the jobs and humans are being squeezed between an uncaring government and human rightsists (I fought, gimme the gold, and get lost, or else).In this episode, the human rightsists are up against Glory Moon-called, the genius that caused the war to end. Garrett has to walk a tight rope between more clients than he ever had all of them with different agendas.Somewhere in there is a set of shapeshifters, four or five VERY beautiful women, and a confused plot that somehow seems to work. I was unable to put it down. I kept thinking, "What the hell is going on?" Garrett didn't know, so neither did I. Oh, I forgot the beer. It's great. I mean what more could you want: Beer, babes, and bad guys?0 von 0 Kunden fanden die folgende Rezension hilfreich. Read anything you can find by Glen CookVon Ein KundeWell, previous reviewer, when you are reviewing a not-yet-available book you can only extrapolate from past performance. I too found Petty Pewter Gods not quite up-to-standard. That means it was only exceptionally funny and witty. I live in hope that the next one will be right back above and beyond. Like all the really good storytellers, Glen Cook only steals from the best. The Archie Goodwin/Nero Wolfe reflections are a real treat to an old Rex Stout fan. I would personally like to see more of the Dead Man, but I recognize the plot difficulties created by such a powerful character. It is tough for Cook to keep the tension going without the Dead Man's powers giving an easy resolution. The Dead Man's orneriness and increasing dormancy are a partial answer, but it means one of my favorite characters is under used. The worst (and best) things about the Garrett PI world are all those characters and plots whose stories have not yet been told. GET TO WORK GLEN! While the Black Company stories are fine, any time not used to tell tales of TunFaire is time ill spent. My fantasy is to host a night(a week?) in a pub with Cook, Terry Pratchett, Larry Niven, Jerry Pournelle, Sharyn McCrumb, Elizabeth Peters/Barbara Michaels, Fred Saberhagen, Dave Duncan, David Drake, Tom Holt, Poul Anderson, Lindsey Davis, Tom Sharpe and George MacDonald Fraser. Joining us via the ouija board would be Rudyard Kipling, Mary Stewart, Victor Mollo, Mark Twain, H. Beam Piper, J. R. R. Tolkien, C. S. Forester and Robert A. Heinlein. What links this eclectic group other than my taste? Fine writing and a different (sometimes twisted) way of looking at the world. I will gladly stand their drinks, but if anyone else wants in, they have to stand MINE! The preceding offer is real, by the way, to all those on the list, be they quick or dead. Drinks only to the quick.

KurzbeschreibungRiots between humans and trolls, elves, and other non-humans have plunged Tunfaire into near chaos. Garrett finds himself pulled into the game when a powerful gang of human rightists tries to shake down his employer?and ends up caught in a conspiracy of hate that pits man against? everybody!KurzbeschreibungRiots between humans and trolls, elves, and other non-humans have plunged Tunfaire into near chaos.
