Von Jenna Elizabeth Johnson : Faelorehn: Book One of the Otherworld Series (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Faelorehn: Book One of the Otherworld Series (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. too "dramatic", too drawn outVon Hoener, BirgitHm - the kindest I can say, I think, is that it was something to read, with the target being much younger readers.For me personally, the protagonist, a teenager, acted like the stereotype of a

drama tantrum queen, thinking she acted oh so adult, but an adult reader would keep rolling his/her eyes (I did, I admit). The story was told by this teenager, and I had the impression the author was very much closer to that age group than I am (or thought she was). The book was too drawn out for my taste; there were a couple of pseudo tense moments, and then again, and then again, until , in the 2nd half of the book, the protagonist finally learnt what she was. You'd think the story progressed from there? Naww, we had a couple of more tense dangerous moments, the protagonist heroically refraining from seeking help, because, Oh I don't want to be different but I so am, isn't that a pity? And have to save my family (who were fairly negligent in taking care of her in my opinion). So, off to the last chapter, where our heroine finally got a glimpse of fairyland, just to be rescued again and then informed she can't be given any more information, but oh by the way, the protection her proper parents put around her was gone now. And that was it, mixed with it a bit of teenage "he loves me he loves me not" drama. The whole book, to me, seemed to have been one bit of introduction to the rest of the series - and a way too long one for that. Will I read the rest of the series? Nope.0 von 0 Kunden fanden die folgende Rezension hilfreich. Book review of Faelorehn:Book One Of The Other world Trilogy Von Stefan I liked the attention to details and the way the author let her plot unwind in a timely fashion. I also like that her book had a consistent delivery of word prose making the scenery and storyline more realistic. It was beautifully written and the intricate details given about the Celtic and fae histories added great depth and made the book all the more interesting. I also like the characters and how each were presented in the book. Very interesting read. I look forward to more from this author. I would recommend this book to those who have an interest in Fae and Celtic culture legends and myths.

Kurzbeschreibung I never heard him come after me and even as I climbed the slope and stumbled onto our shaded back lawn, I didnt look back. It was like the day the gnomes chased me all over again, but this time I was not escaping some horrible little creatures, I was fleeing from an incredibly good-looking guy who could very well understand me completely. I was either saving myself from that serial killer I always imagined lived down in the swamp, or I had finally gone over the deep end . . . Meghan Elam has been strange her entire life: her eyes have this odd habit of changing color and she sees and hears things no one else does. When the visions and voices in her head start to get worse, she is convinced that her parents will want to drag her off to another psychiatrist. That is, until the mysterious Cade MacRoich shows up out of nowhere with an explanation of his own. Cade brings her news of another realm where goblins and gnomes are the norm, a place where whispering spirits exist in the very earth, and a world where Meghan just might find the answers she has always sought.
