Vampires, Fallen Angels, Hunters - sounds promising! And the beginning was! I liked the first chapter, about how/why Seth fell and that there is an actual "before this story" life for Josh, who starts the school-year by dumping his girlfriend. So we start knowing that every character has a little package of past to carry and that is about where the storyline stopped being great. It goes on still being good and full of nice ideas for a few and then it gradually starts to get... stupid? overdrawn? cliché? ... probably all three. As an addition there is a bad guy I barely even noticed! He has no depth, no story not even a very good evil plan. Meanwhile the main character, Grace, just jumps right into teenager-in-love mode only to switch to scared-little-girl and paralysed-by-grief once in a while - all of which would be totally okay and understandable for a real teenage girl, but we are talking a centuries old Angel who lived, died and was reborn over and over again on earth for 150 years (of course remembering everything)!!! All in all the ideas are mostly great and the characters start with depth, but they "resurface" and become superficial instead while every cliché one could expect in a YA Fantasy novel is met and the good ideas end as decor.

Well-written YA paranormal fantasy with angels and vampires *3,5 stars* Von Johanna I really wanted the book to be good because both covers are so breathtakingly beautiful. And fortunately, I wasn't let down. Fall For Me is a wonderful YA fantasy book, expertly written with a plot full of excitement. Main character is Grace, a protection angel, whose single task it is to aid the Tate family with killing vampires. Each generation she is born as the twin sister of the vampire hunter, yet always stays in contact with the heavenly council through her dreams. She has done this jobs for centuries now and excelled at it. But now, there are troubles ahead that might lead to decisions that could change her life forever. I liked the different characters in this book. As I said before in my review on Sacrifice (the prequel), I had some trouble with understanding Seth's menacing mood and some of his actions (like siding with the evil vampires) when considering his history with Grace. I loved Archer, Grace's twin brother. They had a very unique twin connection which I think some twins actually do have (maybe without the telepathy skills). Even Ryan, Emma and other minor characters get a face and I can picture them quite clearly. After the sequel, I was afraid the story would now be about Seth and Grace but it was far more complex, just perfect. The pacing was just right and the author wasn't afraid to even let some of her characters die. Yet, some aspects didn't make sense to me or weren't explained enough, mostly concerning the background of the story. If Grace "dies" around the age of 25 in each life and is reborn as a twin, she must be the daughter of her former brother. And she also keeps her complete memory... isn't that extremely weird, almost incestuous? I also had a problem with the emotions. They were either over the top or I couldn't feel them at all, because the characters carelessly put them on and off like some piece of clothing. Then, there was Grace. As much as I admired her strength and her will to protect the ones she loves, she was just too perfect. Like the absolute superhero, invincible almost impossible to even hurt. That was just too much. Nevertheless, I will certainly look out for the next part in the series Fight For Me which will be published in 2014. *I was provided with a copy of this book in exchange for an honest review.*

Kurzbeschreibung Angels aren't supposed to fall in love, especially with each other. But for the record, you were worth it. Grace Tate is a Protection Angel and Vampire Hunter, and she has always followed the rules. But some rules are made to be broken. Until now the fight against evil has been simple, and falling in love was never part of the plan. So what happens when it's beyond Grace's control, and when she least expects it she falls for the wrong person? All hell breaks loose, that's what. At Hopetown Valley High, not everything is as it seems, and the one person Grace thought was her enemy becomes her most important ally. Blood will be shed, lives will be lost and friendships will be tested. It all comes down to one decision, and when Grace tries to save all those dear to her, she realises not everyone can be saved.
