Political Fall-Out in the Beta-Quadrant Von Kundenrezensionen A pulsar threatens a planet that at first seems empty until the crew of the U.S.S. TITAN finds out, that its surface is protected by a slowly failing artificial magnetic field. While waiting for another ship that is supposed to exchange the Andoran crew-members for some that are politically less in doubt after Andors secession from the Federation Cpt. Riker and his crew look for ways to find out more about this planet and ways to keep "their" Andorans on board. Both seems to be impossible. While the problems around the pulsar belong to one aspect of the continuing TITAN-story, the Andoran troubles - which are made worse by the arrival of an Andoran battle-cruiser - are part of the broader ST-story at the moment and is metaphorically linked to the persecution of Japanese nationals and descendants in the wake of the attack on Pearl Harbour. Interesting and complex continuation - but be warned. There is more than one cliffhanger here. 0 von 0 Kunden fanden die folgende Rezension hilfreich. Buch als... Von janinagebraucht gekauft. Kann also nix zur Story sagen. Lieferung flink innerhalb einer Woche. Buch in intakten einwandfreiem Zustand. Beschenkte voller Vorfreude, da man sich wohl auf die englischen Ausgaben verlassen kann. (Deutsche Übersetzungen sind wohl teilweise sehr drftig bei den Star Trek Bchern)

But this quest also takes Titan perilously close to the deadly Vela Pulsar, the galaxy's most prolific source of lethal radiation, potentially jeopardizing both the ship and what remains of the Taithan civilization. Meanwhile, Will Riker finds himself on a collision course with the Federation Council and the Andorian government, both of which intend to deprive Titan of its Andorian crew members. And one of those Andorians Lieutenant Pava EkNoor shAqabahas just uncovered a terrible danger, which has been hiding in plain sight for more than two centuries. . . .
