**Von Danielle Steel : Family Album** before purchasing it in order to gage whether or not it would be worth my time, and all praised Family Album:

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Pretty

good. Von Ein Kunde I enjoyed "Family Album" very much. It had original, interesting characters, touched upon (at the time of first publication, at least) previously unexplored subjects. These people felt like a real family and I was drawn to them, each as individuals. Sad moments were genuinely touching. The only things I didn't like about it was the blow-by-blow description of the youngest child's sexual adventures, and her involvement with her best friend's father (yuck!). Also, I didn't believe that she actually missed her child, like Ms. Steel states repeatedly in the novel. From her actions, the fact that she gave the baby up for adoption didn't seem to bother her in the least. Other than those things, the book is pretty good. 0 von 0 Kunden fanden die folgende Rezension hilfreich. Did ANYONE notice... Von Kath Mason All right! I am speaking to all of y'all who are devoted D/S fans and have read several of her books. Have ANY of you noticed just how similar "Family Album" is to "Jewels?" The only differences are: \*FA is set in Hollywood while J is in France\* \*The husband in FA is more of a jerk at times and never gets crippled\* \*No one in J was homosexual or in a cult\* These are really the only things that keep FA and J from being the exact same story. The children are quite alike and good portions of the "epics" take place during the same time. Please tell me I am not the only one who noticed this. 0 von 0 Kunden fanden die folgende Rezension hilfreich. A WONDERFULLY SUPERB BOOK! Von Ein Kunde Steel is at her best again. Faye is a woman with five children all of who are extremely different from one another. Her husband seems to take off everytime a problem arises. Faye is determined to love her children unconditionally even when she learns that her oldest son is gay. This book will take you through the ups and downs of life and how this family deals with their problems. It teaches you a lesson about life, not to give up when the going gets tough. So sit back and enjoy your ride.

Kurzbeschreibung Through forty years from Hollywood's golden days in World War II to the present Faye Price would create first a career as a legendary actress, then a family, and finally she would realize her dream of becoming one of Hollywood's first woman directors. But nothing was more precious to Faye than her five children. In a changing world, a milieu where family values are constantly challenged from without and within, the Thayers would face the greatest challenges and harshest test a family can endure, to emerge stronger, bound forever by loyalty and love. It is only when Faye is gone that they can each assess how far they have come, and how important their family album is. From the Paperback edition. Pressestimmen From the New York Times: 'Ms Steel is undeniably an expert ('It's safe to say Ms Steel's fans won't be disappointed') Werbetext\* A classic novel from internationally bestselling author Danielle Steel\* Every choice has its price . . . A novel set amid the glitz and glamour of Hollywood
