Von Brett Williams : Family Business (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Family Business (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Das beste, was es seit Texas Chainsaw Massacre und Wrong Turn in Buchform gibt!Von Dr. ChampaignBrett Williams zieht mit diesem Buch wirklich smtliche Register, die man bei "Backwoods"- oder "Redneck"-Titeln erwartet. Wer Texas Chainsaw Massacre oder Wrong Turn als Film mag, kommt hier nicht zu kurz. Mit zahlreichen Subplots

gewrztter Horror und tolle Charaktere. Abartigkeiten aller Art werden anschaulich geschildert und ich wnschte mir, es gbe bereits einen Teil 2 (leider wei nicht, ob so etwas vorgesehen ist). Das Buch ist auch recht lang. Einer der besten Horrortitel, die ich je gelesen habe! Das Buch ist bei FESTA auch auf Deutsch erschienen.

KurzbeschreibungUnable to convince her husband they are ready to become parents, trophy wifeErika decides to buy a puppy. She heads into rural Missouri in search of aYorkie pup, only to find more than dogs caged in the barn of a secludedpuppy mill...After the death of her mother, Bobbie Jean finds herself living with her aunt and uncle at their rural farm. Without many options, she begins to sellher body to anyone to turn a quick buck. But when she discovers Uncle Levi'sdirty secret in the barn, Bobby Jean must decide whether to join the familybusiness.EDITORIAL REVIEWS"If you like hardcore, and I mean Hardcore with a capital 'H,' horror with purpose, and are able to find the value in movies like HOSTEL and can appreciate the tenor of stories like AMERICAN PSYCHO, then you will absolutely love this book." --Cheryl Anne Gardner, POD PEOPLE"This was a fun book! Okay, so I know it was horror and I don't know if I'm supposed to think it was fun, but it was. It has some twists and turns that are expected, but the author takes these expectations and bends them into something else. Williams really owns them. He does such a wonderful job of allowing the characters to speak for themselves and by the end of the book, the suspension of disbelief is still gnawing at your brain. I would definitely rec it."--Saranna DeWylde, author of HOW TO LOSE A DEMON IN 10 DAYS"Brett Williams is a writer who hooks the reader from the first sentence and holds that interest until the last. With Williams, you are guaranteed to be entertained." --Mark Allan Gunnells, author of THE QUARRY"Bottom line, FAMILY BUSINESS will not be for everyone, but for those with a literary taste for this kind of vicious, bloody, no-holds-barred horror, it's practically a must-read." --Mark Allen, author of THE ASSASSIN'S PRAYER
