**Von Gun Brooke : Protector of the Realm (Supreme Constellations Book 1) (English Edition)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Protector of the Realm (Supreme Constellations Book 1) (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen4 von 4 Kunden fanden die folgende Rezension hilfreich. A good

lesbian sci fi story Von Astrid Summary: When fired upon during a space journey, resolute Commodore Rae Jacelon of the Gamma VI space station apprehends a stunning, but decidedly lethal, Gantharian woman fleeing from her home planet together with an unusual young boy. Kellen O'Dal is prepared to cut any deal or commit any crime to carry out her duty and keep the child with her. Having lived for her career in the Supreme Constellation, a vast union of planets, Rae risks her future and offers Kellen a solution with unanticipated ramifications. High-stake power games among bitter planetary rivals further complicate the unexpected attraction that develops between the women. While the powerful Council debates how to take advantage of the politically explosive situation, Rae and Kellen embark on a dangerous mission to save the child, and ultimately, each other. \_\_\_\_\_ This book is definitely one of the better lesbian sci fi stories available. It was fun to read and enough "sci" to be curious without getting bored from lengthy scientific descriptions. I personally love books where you'll be able to sense how much work the author put in the development of the characters and Gun Brooke did a very good job here. Beside that the plot is very well developed and open nearly till the end. While reading it I could not stop imagining a certain red haired captain and a certain blond Borg from a certain series; but that doesn't do anything bad to the story at all. 1 von 1 Kunden fanden die folgende Rezension hilfreich. Over and over again Von Kuschelpuschel07 Woah. Never read such a book. The romantic part of it makes you long for more. The cliffhangers are written in a delightful, torturing way. You CANNOT put this book aside. It took me three days reading without sleeping, to finally understand what was going on. I was growing an addict. And on one Saturday, after five hours, without eating and drinking, I read the last sentences. No way! Must be a next one. And there is. For God's sake...! Without wanting to spoil at all, I think that it is only good critic to write here down that the erotic parts and the increasing sexual tension is so well written, that it is a pleasure to read this novel. To be honest, I had to constantly think of some of the female actors of a certain series (which confronts mankind to human-robots) and it was simply delightful to imagine the scenery in front of my inner eye. Truly, this is one book that I will read over and over again. And not get bored of it. Let's hope the rest of the series (trilogy? hopefully more than three!) is as breath- and sleeptaking as this one. ;o) But anyone should be able to judge by oneself. Over and over again. E\*\*\*0 von 1 Kunden fanden die folgende Rezension hilfreich. Gutes Konzept, drftige Ausfhrung. Von tbk26 Naja, die Autorin dieses Buches war vorher Fanfic-Schreiberinnen, und das merkt man deutlich. Wenn man aber ber den leicht holprigen (und leider sehr minimalistischen) Erzhlstil hinwegschauen kann, bekommt man eine solide SciFi-Story (im wesentlichen StarTrek mit etwas Babylon 5) voller politischer Intrigen und Lesbensex. Wenn man auf sowas steht sollte man hier zugreifen, wenn vielleicht auch etwas aus Mangel an vergleichbaren Alternativen.

Kurzbeschreibung Book One: Supreme Constellations With the fate of entire civilizations at risk, the galactic battleground makes for unusual alliances and unexpected passions as two women from very different worlds join forces. When Commodore Rae Jacelon of the Gamma VI space station apprehends the alluring but decidedly dangerous Kellen O'Dal, it is the start of a breathtaking love story, as well as a dangerous rescue mission. A space adventure filled with suspense and a daring intergalactic romance.
