were disappointing (some "Supernatural" books) and some were pretty okay (some "Doctor Who" books) - and this one was the best so far. It's not a super-duper crime Bestseller, yeah, but it's suspenseful ("Psych"-style of course), bromance-y, and funny. At times even hilarious. And most important: the characters are spot on. Shawn is not as easy to write as many People think...it can be hard to portray him as funny idiot that happens to be a genius and that is, in spite of everything, very loyal and not making him look like an intrusive pain in the neck. So, here, Shawn is - in my opinion - portrayed very well, I could hear James Roday's voice in my head (always a good thing!) and the author nailed Gus too. I gave 4 stars instead of 5 because the thing I waited for to happen (the real adventurous part) only happened in the last quarter of the book and was therefore a bit late (and short). It's a very good read, though, and I'd recommend it!!!

Zuvor habe ich die ersten beiden Bnde gelesen, die mir auch recht gut gefallen haben, aber dieses war noch mal anders! Vorallem das letzte Drittel des Buches war richtig spannend! Dieses Buch als Folge zusehen wrde mich freuen :D Fr Psych Fans ein Muss (auch fr die die nicht so gut in Englisch sind, denn es ist in einer sehr einfachen Sprache geschrieben, so dass sogar Sekundarstufe 1 Schler das Buch verstehen knnen! Ich freu mich schon auf das nchste Buch!

Kurzbeschreibung Based on the hit USA Network series A new novel fans will be totally "psyched" about... Shawn Spencer has convinced everyone he's psychic. Now, he's either going to clean up-or be found out... Shawn Spencer has always hated the wilderness-by which he means anything outside the delivery radius of his favorite pizza place. But Psych has been hired to solve a baffling case of industrial espionage, and the only way to catch the spy is to join their client's bonding retreat-a grueling seven day backpacking mountain trek. But when one of the campers turns up with a bullet in the head, Shawn and Gus soon realize that sheer cliffs, rampaging bears, and freeze- dried pineapple aren't the greatest threats they face.
