Von Selina Rosen : Queen of Denial (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Queen of Denial (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen2 von 2 Kunden fanden die folgende Rezension hilfreich. Excellent read - great plot twists.Von Ein KundeExcellent book. It captured my interest and keep me reading till the end. I finished this book in one afternoon. Appreciated seeing a women as the lead character. This type of book is normally a "man's" world. Good characterization throughout. The plot twists were excellent. I was sure until the last

page just how everything was going to work out. The only thing that was a slight drawback for this novel - was the language. I thought that the writing was good enough to spin the story without all the profanity. It was, at times, even distracting from the story. Overall, though, the book was excellent. Well written, good plot, great read!0 von 0 Kunden fanden die folgende Rezension hilfreich. Sci-Fi gets NO BETTER than this!Von Detra FitchThe planet of Barious had finished a long war. Five years previously, during one of the conflicts, Taralin Zarco, Queen of Barious, was abducted by the Barion's mortal enemies the Locheds. The Locheds used Taralin as a test subject in their labs. After five years of captivity off planet Taralin no longer had any memories of being Queen of Barious. With the war over, King Zarco sent for his wife to return.Drewcilia "Drew" Qwah was the best salvager in the galaxy. She drank too much, smoked too much, and had a mouth that would make a sailor blush! Her partner, Van Gar, was a huge hair covered alien. They were hired to escort the confused queen back to her husband. No matter how much Drew hated royalty, it was a lot of beer money for a SIMPLE escort job.***** This story is down-right edible! I felt as though Drew was a female Han Solo since her morals seem to be the same and her partner looks much like a Wookie. No nonsense, beer guzzling, hilarious, and NOT TO BE MISSED! I loved every second! *****0 von 0 Kunden fanden die folgende Rezension hilfreich. Fantastic!Von Ein KundelIf you like an outrageously funny adventure this book is for you! Selina Rosen is one of the best new SF writers in years. Not only was it a wild ride, but if you look under the surface of salvage scows and beer cans you will see a ton of good sense and a writer with a message. "Get a Life!" "Take a Joke!" "Don't have a cow!" "Buck up!" The pages flew by and I laughed out loud so often that my wife thought I was insane.....In short, Fantastic!

Kurzbeschreibung"A rarity of rarities: a book that makes you laugh out loud. Selina Rosen's debut is very much worth reading. SF's answer to Terry Pratchett."--C.J. Cherryh"Queen is funny and pointed. Ms. Rosen takes a Star-Trek-like plot, introducing the social ills of a world that could be our own, and attacks them with ruthless humor."--Jody Lynn Nye"Should appeal to anyone who loves a riotous, wickedly funny read."--Jane Fancher"A rip-snorting space adventure the likes of which we don't see often enough these days!"--Lawrence Watt-EvansKurzbeschreibung"A rarity of rarities: a book that makes you laugh out loud. Selina Rosen's debut is very much worth reading. SF's answer to Terry Pratchett."--C.J. Cherryh"Queen is funny and pointed. Ms. Rosen takes a Star-Trek-like plot, introducing the social ills of a world that could be our own, and attacks them with ruthless humor."--Jody Lynn Nye"Should appeal to anyone who loves a riotous, wickedly funny read."--Jane Fancher"A rip-snorting space adventure the likes of which we don't see often enough these days!"--Lawrence Watt-EvansSynopsis On the planet Barious, war has become a national pass time. During one of these conflicts Taralin Zarco, Queen of Barious, was abducted by the Barion's mortal enemies the Lockeds. When the story starts the war has ended, the Barions have won, and the queen has just been found on a distant planet. Enter Drewcila Qwah, a rough-and-tumble salvager, who drinks too much, smokes too much, and has a mouth you wouldn't kiss your mother with. Drewcila (Drew) and her partner, a huge hair-covered alien named Van Gar, have been hired by the king's emissaries to take the confused queen to meet her husband. Only two real problems with this plan. Drewcila hates royalty, and the queen has no memory of being queen or of her husband. Meet a strange world filled with palace intrigue, rebel plots, assassination attempts, civil unrest, economic depression, trash, and the unscrupulous salvager who wants to change it all to suit her own needs. "Queen of Denial" is a book with one mission: to entertain. It is a fast-paced, hard-hitting, action-packed, science fiction comedy, with a little mystery thrown in for good measure. Ms. Rosen believes in researching her work in every detail."Queen of Denial" is the end product of a lifetime of drinking, working in the trash collection business, and getting into fistfights over petty crap.
