Von J. D. Robb : Rapture in Death (In Death, Book 4) before purchasing it in order to gage whether or not it would be worth my time, and all praised Rapture in Death (In Death, Book 4):

KundenrezensionenHilfreichste Kundenrezensionen3 von 3 Kunden fanden die folgende Rezension hilfreich. Hi-Tech FUTURE STYLE MURDERS....Von Ein KundeEve can't even take off on a "Honeymoon" with out something

"interesting" happening. VR is heavily featured in the newest installment of this exciting series. Power and Madness is still alive well in the future, their just using different tools/weapons. Rougher than the 3 previous books, but no less exciting. All the wit, grit and twists we expect from Robb. Eve Roarke's interaction make my Teeth Sweat I like it! ENJOY!

2 von 2 Kunden fanden die folgende Rezension hilfreich. Mind bending murder

Von Ein Kunde This book is so clever! Ostensibly a murder mystery set in the year 2058 where the victims are somehow being enticed to commit suicide. However the author has written in a terrific and subtle subplot. The murders are being investigated by New York police lieutenant Eve Dallas. Only married 3 weeks Eve and her husband Roarke's relationship is tested at a fundamental level by the machinations of a mood controlling sound engineer. In the other books in the series Eve relies on Roarke's presence in order to fulfil a need as basic as good night's sleep so it is only fitting that in Rapture in Death it is Eve who gives Roarke the strength to come through their dilemma. Eve solves the murders in her usual way - by getting it wrong!! However that hasn't stopped me buying all seven books in the series and placing an order for 'Conspiracy in Death'. Nora - I think you're brilliant but I can't imagine how you cope with that sort of output!!!

1 von 1 Kunden fanden die folgende Rezension hilfreich. Gutsy (and just-married) Eve Dallas is back!

Von Ein Kunde J.D. Robb (aka Nora Roberts) has created an intriguing main character in Eve Dallas, and nowhere is this more evident than in this novel. Eve, recently married and still getting used to being well-taken-care-of, must solve a mystery that involves a series of apparently-rapturous suicides. This novel explores virtual reality AND the amazingly satisfying relationship between Eve and Rourke, her new husband. As intriguing as Eve is, Rourke is equally breathtaking as the husband who wants to protect and spoil his new bride while also yearning for her love in return. Several beautifully written and explicit love scenes stand out in the midst of all the high-tech gadgetry and rough goings on. Many fictional couples become less interesting once they're married, but Dallas and Rourke break that mold and work together as a team fuelled by energy, sexual attraction, and mutual affection. Rourke is always ready to save his wife, but she very rarely needs saving. Kudos to Ms. Roberts for creating a heroine who can take care of herself and a hero who knows how to step back and watch her do so

Kurzbeschreibung Lieutenant Eve Dallas delves into the world of virtual reality gaming to stop a sadistic killer in this In Death novel from #1 New York Times bestselling author J. D. Robb. They died with smiles on their faces. Three apparent suicides: a brilliant engineer, an infamous lawyer, and a controversial politician. Three strangers with nothing in common and no obvious reasons for killing themselves. Police lieutenant Eve Dallas finds the deaths suspicious. And her instincts pay off when autopsies reveal small burns on the brains of the victims. Was it a genetic abnormality or a high-tech method of murder? Eve's investigation turns to the provocative world of virtual reality games where the same techniques used to create joy and desire can also prompt the mind to become the weapon of its own destruction... From the Paperback edition. From Publishers Weekly The year is 2056. mood-altering drugs are legal, prostitution is licensed, virtual-reality games have replaced TV sets for entertainment and New York supercop Eve Dallas continues her sleuthing in Robb's fourth installment in the Death series (Naked in Death, Glory in Death, etc.). This time around, Eve has married her soul mate, Roarke, and is caught up in the puzzling suicide of a technician who's been working on Roarke's unfinished space resort. The young tech, Eve learns, had cheerfully hanged himself after a VR trip. Back on Earth, autopsies from two similar suicides reveal a pin-sized burn on the brains of the victims. All clues point to a deadly subliminal message in a VR toy? one that Roarke produces. This is sexy, gritty, richly imagined suspense. The fact that it is written by Nora Roberts under the pseudonym J.D. Robb is a tribute to her versatility. Copyright 1996 Reed Business Information, Inc. Pressestimmen 'a perfect balance of suspense, futuristic police procedural and steamy romance...truly fine entertainment...sure to leave you hungering for more...' Publisher's Weekly
