Raven is devastated by the death of her mother by the evil hands of vampires and turns away to start life over in a seemingly human settlement, only to find it

wasnt what she expected and vamps dwell here. Eternally tormented by the loss of her mother and feeling extremely guilty over her unlikely attraction towards a vampire, she feels this violates her mother's final memory but her desires are strong. The author boldly explores a very dark and powerful theme of contrast and irony in this one which makes it a delightful read. Connor, the vampire turns out to want Raven too, but on his own terms and the two embark on an affair that literally sets my kindle fire---ON FIRE. The perils that lie ahead are many and the roads dangerous for these two, and what lies ahead may change their lives forever if they make it out alive. You must read this book. 0 von 0 Kunden fanden die folgende Rezension hilfreich. Raven's Blood Von MicWow what a unique kind of story ! This book surprised me with a wonderful thought through story and since I'm an absolut fan of vampire / wolf / supernatural and this now combined with an idea of a future worldscenario ...great ! It was an absolut page turner, because I had to know what would happen next and the development of the story...And even more perfect, it's a romance story entwined with this new future. I loved all the characters and the relationships between the different species. It developed wonderful and all the details lead you in a though dark and human unfriendly world, but the hope of life...does not matter in witch direction evolution is going...it's just really awesome. AND ON TOP just to get it a lot more sweeter.. Raven and Connor !!! He ...panty dropping sexy and she 's his perfect match, strong, independent, but also vulnerable. Chemistry guaranteed So enjoy this book, hopefully as much as I have. If you like a new dark, dangerous world scenario, but with a lot of hope and love in it, go for it !
