What can a long-lasting threat lead the potential victims to? How would any person act without knowing when and how he or she will be killed, but expecting that every day to happen? The novel discloses the doors behind the insane nature of the fame-seeking thriller writer who is absorbed in his future masterpiece he should not only mastermind and depict the epic murder on the pages he must commit it himself. Play the death game with three readheads, lost in the woods on the wolf's diabolical murder scheme. All the possible routes that the three red-haired women can take are predicted long before the game starts. There is no way out only if... The peril that hangs in the air around the readheads awakens the hidden sides of their natures they had never known before.

I don't see great things in this book, better other works of the same writer, this is not my favorite but is not that bad either.

Kurzbeschreibung
Not all fairytales have a happy ending... A gripping psychological thriller that you won't be able to put down. Perfect for fans of *The Girl Before* and *I See You*. 'You do not know me, but I know you. I have decided to call you: Red One. Red Two. Red Three. I know each of you is lost in the woods. And just like the little girl in the fairy tale, you have been selected to die...' Karen, Sarah and Jordan have nothing in common aside from their hair colour. Red. To the man who has been watching their every move for months, this is enough. Their lives are now in his hands, their stories will only end when he chooses to reveal himself, unless they can find him first...
