Fun and hot, but not much of a plotVon Juniper Green\*\*I received a copy of this book from the author in exchange for an honest review.\*\*Released is a m/m erotic story, set on some distant planet in a distant future. Women have become scarce on the planet of Noval. During Noval's breeding selection, one lucky male is chosen to mate with one of the few remaining females. This time, Krial is the lucky one. Although he doesn't feel so lucky at all Krial's gay and deeply in

lust with his trainer Dax. This short story is quite entertaining, if you know what you're getting yourself into. It's mainly erotica, with some hot scenes between two more or less alpha-males. It's not much of a sci-fi story, the sci-fi setting is rather perfunctory. By no means should you take this story too seriously. Or seriously at all. Just leave every hope for plausibility far behind and go with the flow. Of all reasons for women going nearly extinct, the author chose the probably least likely one. The dialogue is contrived, the characters are stereotypes: Dax is the growling alpha-male who growles. A lot. Krial is the not-exactly-as-alpha-as-Dax alpha-male who's got the hots for his trainer. There isn't much of character development. The solution comes too fast and is much too convenient. Also, there's always that convenient bottle of lotion at hand when the characters need it the most. You get the idea. But in all this tropy over-the-topness, the story is FUN. While the way the erotic scenes were written didn't really work for me, and although I'm not into alpha-males, I can see the appeal of Dax and Krial's times together. I would've liked to read more about the training and the building sexual tension between Krial and Dax. That would've made for a great read, I'm sure.

Kurzbeschreibung Some laws are made to be broken... On the small, male-dominated planet of Noval gay sex is forbidden. Unfortunately for Krial, his size and strength make him a prime candidate for Novals breeding selection training. Krial is angry and resentful when hes forced to spend three months on the backward, archaic planet. However, he never anticipates falling hard for his gruff and demanding trainer Dax. Dax is a professional. He wont break the law, but hes not above blurring a few lines for the benefit of his trainee. Sometimes when the planets align the impossible becomes possible... When the unthinkable happens, and Krial is selected as the next breeder, he lashes out at the only one who can handle him Dax. During the physical battle that follows, Krial expects to be put in his place by his massive and controlled trainer. Never in his wildest dreams does Krial imagine that Dax will touch him, kiss him or invite him back to his bed. Released is a complete, smutty, erotic m/m romance featuring two futuristic, gay, alpha-male heroes wholl leave you breathless. This story contains explicit m/m sexual situations, content and language and is intended for adult readers.
