Von Chase Potter : Remember My Name (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Remember My Name (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. A little masterpiece - highly recommendedVon SonneWhen I had read Chase Potters first book The Race For Second, Ive been very impressed by his ability and knowledge in creating believable, genuine characters and their surroundings.I was curious, if hed be able to do the same in his second book and I have to say it just so: Wow, well done again, Chase!This is not the usual m/m romance, just to say that in the beginning. If you want two better than good guys getting their HEA, youll find out, this is not going to happen in this book. But I still would encourage you to read it. Its

a wonderfully written book that shows great writing skills. Each character is unique and subtly well crafted. The book itself is a lot about growing up, finding out who you are and what you want. Jackson and Ben had been inseparable as kids, twin brothers who were very different but had their backs. Then the unimaginable happened, their parents were getting divorced and circumstances were leading to their separation. Jackson is growing up with his father, not seeing Ben again. Then, during summer break years later, when Jackson actually wants to explore his gayness and sexuality with Matt, a guy only two years older than him, Ben is kind of forced back on him. Neither of the two brothers is very comfortable with the situation. While being apart, living very different lives, they had been able to cope with the loss of the other but when living together again, they realize how much they missed the way things had been but they don't seem to be able to go back to their former closeness. Too much has happened or even worse not happened and had been left unspoken. I've read this book as a Beta reader. New Adult, Young Adult or whatever you want to call it, books about growing up aren't my usual reading material. But as said before, the sheer beauty and skill of Chase's first book made me agree to read this one and I'm very, very happy that I could do this. If you are looking for a book that doesn't cater to the growing mass of all the same books but has substance, complex human characters, well-crafted atmosphere and is skillfully written try this one. And while it doesn't have a HEA, it certainly doesn't need one. The end is nonetheless a good one.

Kurzbeschreibung Every action can have devastating consequences. For Jackson Roanoke, the greatest consequence of his parents divorce was watching his mother drive away with his twin brother Ben, putting thousands of miles between them. Eight years later and with college looming, Jackson is tasked with reroofing his father's house. After a tempting offer of help from a young man, Jackson finds himself caught up in a growing attraction he's hesitant to embrace. But when his brother Ben reappears at the front door, Jackson is confronted by more than he's prepared for. Brought together by circumstance, the estranged brothers are forced to navigate a relationship that persists only in their memories. Marked by the heat of a Midwest summer and rolling wheat fields, the short months are punctuated by scattered moments of closeness between the two brothers, hinting at the possibility of rekindling the connection they once shared.
