She never had time for a private life as learning to become successful is her number one priority. When she lands an amazing internship in Chicago's most prestigious architectural firm she goes out with her friends to celebrate. In the bar she sees a tall dark and very sexy man, who seems to ignore her, but in fact he does not he is very attracted to her, for a one night stand because this is all he does. Adeline decides to enjoy life even if only once, for this first time.When Jordan Ellinwood wakes the day after he brought a beautiful young woman to his bed he is shocked to discover she left and even worse that she was a virgin.Starting her new internship things however don't start the way

she expected, walking into a boardroom one of the men in front of her is the man whose talents she enjoyed for one night. But as they have to work together and as he demands to understand why she has given him her virginity, things get very complicated. Jordan is fascinated by Adeline and wants to repeat the one-night they have spent together. Both are fighting with their emotions and desires. Being off limits for each other and being uncertain of their own feelings doesn't keep them to enjoy each other in every possible way. The plot is interesting but not revolutionary it is a nice erotic love story. I really enjoyed Jordan's blunt way to speak about sex. I had some problems understanding Adeline's behavior sometimes, it didn't fit her character and both characters missed a kind of realism. They were nice, I read how they behaved but couldn't really figure out why they acted the way they did. What troubled me most was the writing itself. The story is told from the POV of Adeline and Jordan, but most of the time they just state what happened in a very short way, which gave me the impression to miss a lot of their story; it simply went by too fast and felt rushed. I missed more details about the time they spend together talking, dialogues if you want. For example they sit down to eat and 2 line later they leave the restaurant. I would have enjoyed some more interaction and discovering each other. The numerous sex scenes were hot and nice but quiet traditional and well numerous. I really loved the colors of the cover. Overall it was a nice read with some very erotic moments. Enjoy the read MBTM1 von 1 Kunden fanden die folgende Rezension hilfreich. Romantic and erotic love novel Von M.A. "Resorting Jordan" is the story of Jordan, a mid-thirty, high level employee at an architectural firm, and Adeline, a twentytwo almost graduate of college with design major. These two meet in a bar and take off to encounter in a one-night-stand - just to run into each other two days later at Jordan's firm, where Adeline is as an intern. As you can well imagine things get rather complicated from there on.... The book is written quite nicely, not too cheesy and foreseeable and sweet and funny with the struggle of emotions between the main characters. Very good as a book to take your head off of stressing things. 0 von 0 Kunden fanden die folgende Rezension hilfreich. loved it, mild sopiler Von M.J. i loved this one here! story is simple, as always, but in this case it was more about him than her. i think the author did a great job with this story here. the end was predictable but okay, even if i always have my problems with 22 years old getting engaged after 2 months being in love. i can highly recommend it!

Kurzbeschreibung When Adeline Parker decides to celebrate landing a coveted internship at one of Chicagos most prestigious architectural firms by indulging in a brutally dark and handsome man, she gets more than she bargained for. Lost in a maze of hallways on the first day of her new position, she stumbles headlong into a boardroom of suits. Very expensive suits. They are the somebodies of this prestigious firm, and she is, by all accounts, the very definition of a nobody. And sitting at the table with the rest of the principals from the firm is a man the very man who unwittingly deflowered her only days before. From the look of it, Jordan Ellinwood is none too happy to see her again; by his own admission, hes a one-night-stand man, and the fact she conned him into taking her virginity isnt sitting well with him either. But as her path is inextricably attached to his, their closeness will no longer be a choice. As an intern, shes off-limits, and that says nothing of the fact hes twelve years older than she is. But when coworkers bent on jealousy and resentment threaten her reputation and internship, the long-dormant emotions Jordan has so effectively stifled fight to break free. And as he struggles to get out of his own way long enough to let her see his compassion, her career is jeopardized and leaves him fighting with every last ounce of himself to save her. Will it be enough? Can he overcome his emotional shortcomings in time to rescue her future and his own now so very attached to hers?
