Kurzbeschreibung Southwestern Shifters: There are many reasons to visit the beautiful Southwest, a land of mystery, magic and mayhem-and shifters. Sometimes a wolf is just a wolf...except when it's more. Shifters roam the Southwest, in packs and alone, struggling to survive. When it's discovered, by one wounded outcast, that gay shifters also have destined mates, the shifter world is forced to rethink its beliefs. A change in the shifter hierarchy is shaking up the packs, making new rules and forcing the shifters' archaic ways out the door. For some, the changes may come too late; their faith in their fellow shifters has been shattered. For others, the changes are embraced with open minds and hearts - and a hope that burns deep inside. To be accepted, part of the pack, instead of living with the threat of being shunned for their sexual preferences-many shifters are free for the first time. They have the hope of finding their destined mates, men who fill the emptiness in their souls. But not everyone in the shifter world is willing to accept the changes, destined mates or not. They don't want their ways to change, and they will do anything, no matter how evil, to keep the packs under their power. **Revenge by Bailey Bradford** Book Eight in the Southwestern Shifters series. There isn't a safe place in the world when someone wants you dead more than they want to live. **Ryder Johansen** is trying to figure out the shifter world. He was turned without his consent, another bad thing in a life filled with shitty choices. Now he's learning that he doesn't have to be an untrustworthy jerk. He can be more than the sum of his past. **Maarten Visser** is at a loss with his life. His pack abandoned him! Their alpha! once his brother **Luuk** was back in power. Maybe a trip to visit the North America Alpha **Anax** will give him some perspective. Or maybe it'll kill him. **Marcus and Nathan** are getting their pack past the attack that destroyed their other compound. They've got everyone settled in a new, secure place. Except it's not as secure as they thought, and someone is out to destroy them and hurt **Marcus** as much as possible along the way. **Bailey Bradford** About the Author: A native Texan, Bailey spends her days spinning stories around in her head, which has contributed to more than one incident of tripping over her own feet. Evenings are reserved for pounding away at the keyboard, as are early morning hours. Sleep? Doesn't happen much. Writing is too much fun, and there are too many characters bouncing about, tapping on Bailey's brain demanding to be let out.

Caffeine and chocolate are permanent fixtures in Bailey's office and are never far from hand at any given time. Removing either of those necessities from Bailey's presence can result in what is known as **A Very, Very Scary Bailey** and is not advised under any circumstances.
