**Von Elliott Kay : Rich Man's War (Poor Man's Fight Series Book 2) (English Edition)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Rich Man's War (Poor Man's Fight Series Book 2) (English Edition):

A worthy sequelVon BennyBecause I'm not a very good reviewer of books, I'm gonna make this short.This is indeed a worthy second book in the Archangel installment. It has a different pace and style than the first one, but offers more

character development and introduces quite a few new ones. While Tanner gets less opportunities to be the hero, that is exactly the right thing in my eyes as I fear it would become annoying and stale. If you liked the first book, you'll like this one as well - less if you crave action, more if you prefer character development and variation. 0 von 0 Kunden fanden die folgende Rezension hilfreich. And strike Two! Von A.F.H. Tintenkrieger Second part to Poor Mans Fight this continues the story in the space around Archangel and its political problems with the super corporations. Again, hardcore fight action of space marine theme are combined with a political thriller and several different character plots to fit nicely into a greater whole. My only downpoint and yet still a highlight is that the story feels unfinished - making me hope for yet another part in this very nice new universe to poke around in. Do go on Elliott - I will certainly read the third installment. 0 von 0 Kunden fanden die folgende Rezension hilfreich. Gelungene Fortsetzung von Poor Man's Fight Von Ronald Klee Wie schon gesagt handelt es sich hierbei um die Fortsetzung von Elliot Kays Roman Poor Man's Fight. Neben einer Weiterentwicklung der Hauptfigur bittet der Roman verschiedene Schauplätze, Sannung und Action satt. Die Kampfszenen sind gutbeschrieben. Zur Handlung möchte ich weiter nichts sagen um die Spannung zu erhalten, nur soviel: Wem Poor Man's Fight gefallen hat sollte unbedingt zugreifen!

Kurzbeschreibung No one walks away from business with the three biggest corporations in the Union of Humanity. Cutthroat trade deals and bloody covert operations make that clear as the star system of Archangel tries to break free. Yet despite all their power, the Big Three are more vulnerable than anyone knows leaving them desperate to make an example of Archangel. Tanner Malone would gladly avoid such struggles. He'd rather run out the clock on his enlistment in the Archangel Navy. Instead, he's been ordered back into the front lines of a cold war that quickly grows hot. He doesn't know about his government's shady deals, or about the old enemies lurking in the shadows. All he knows is that the sky is falling and he'll have to fight harder than ever if he doesn't want to be crushed beneath it.
