Von Katy Evans : Ripped (The REAL series Book 5) (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Ripped (The REAL series Book 5) (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen1 von 1 Kunden fanden die folgende Rezension hilfreich. Loved it...Von LittleDarling"Ripped" is the next installment in Katy Evans' "Real" series. And what an installment it is.After I wasn't all that wowed by Melanie's story in "Rogue", Pandora and Kenna more than made it up to me.Their story is intense and raw, filled with so much hurt, heartache, betrayal and insecurity, it can bring you to your knees. It's a story

about a young love that was pure, real and binding, but couldn't weather the pressure and expectations that the outside world imposed on them. Now, years later, Pandora is a woman who had her heart broken by the only man she ever loved. It was a betrayal and pain her heart never recovered from and so she keeps it guarded. Not allowing herself many emotions, she appears cold, distant, sarcastic and cynical. Yet underneath the tough exterior is a young girl feeling rejected and abandoned. When the person that broke her heart is suddenly in her life again, it all turns upside down. Not wanting to let him back in her heart, she tries everything to fight the feelings she still has for him - except the ones of anger, hate and thirst for revenge. But a love like she felt for him can never be truly laid to rest, so the more time they spend together, the more her feelings resurface. And though she tries to hide them behind a sharp tongue and insults, it is easy to see that her heart is still bound to him. I liked Pandora and I liked the depth that Katy Evans gave her character. She has reasons for her cold and harsh behavior. The pain and the fear of getting hurt again are palpable. It's so easy to understand why she acts the way she does as her heart has never grown beyond the moment it was ripped in pieces. But she has the courage to slowly let love in and I enjoyed witnessing how she allowed her softer and more emotional side to show - step by little baby step. Mackenna was something else. He too felt betrayed and abandoned, unworthy of love. Now a rock star, those feelings still haven't changed much and even with all the money, fame and women he still feels alone and empty - missing an important piece of himself. That piece is Pandora. So once their worlds collide again, all his old feelings resurface and burn with an all-consuming fire. While at first he wants to make her pay, it soon changes into wanting to make her stay. And not just because of the mind-blowing sex that they have. He feels like they belong and he doesn't make a secret of it. He's intense and doesn't stop pursuing her, trying to get her to see what he's seeing. And he does this well - but how could he not, considering he's a sex-as-sin rock star that is also witty and smart, and has a soft side to him as well. What a mix! Add to it his protective and possessive streak as well as his down-to-earth attitude and you have one irresistible book boyfriend. Their chemistry and sexual tension is off the hook and will make you fan yourself at times. Their banter is hilarious and their emotional moments are intense and raw. I couldn't stop keeping my fingers crossed, hoping that they'll sort their issues out. But as the secrets that both of them carry from the past come to light, they'll have to prove if their love is strong enough to forgive and understand. Sometimes I wanted to slap them both upside the head though in order to make them see what's in front of them. And I wanted to smother Pandora for constantly going on about his "wolfish eyes" and his perfect buzzed head. Jesus girl, curb your obsession. But those minor hang-ups didn't do anything to reduce the awesomeness of the story. 4 goth-and-a-rockstar stars.

Kurzbeschreibung The fifth book in the New York Times new adult series that began with *Real*. A ripped rock star with attitude. An ex-girlfriend with a reckless plan. Pandora assumed getting her heart broken by her bad boy ex could only happen once--until Mackenna Jones comes back to town for the biggest concert of his career. They say girls are getting pregnant just thinking about the *Crack Bikini* tour and it's destined to be a huge hit.
