**Von Tui Allen : Ripple: A Dolphin Love Story (English Edition)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Ripple: A Dolphin Love Story (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Ein

Reizvolles Tummeln und Toben mit den Delphinen Von Marianne S. Tong Statt einer Geschichte über Delphine, hat Tui Allen eine Geschichte der Delphine geschrieben. Der Leser erlebt Erfahrungen, Sorgen und Freuden von mehreren Generationen einer hoch entwickelten Spezies. Man erlebt ein reizvolles Tummeln und Toben mit den Delphinen als Tui Allens Buch, *Ripple*, den Leser in eine ozeanische Welt transportiert! Man vergisst einfach, dass man nicht dieser Delphingemeinschaft angehört. Die Hauptrolle ist von *Ripple*, einer jungen Delphine, ausgeführt. Ihre große Aufgabe, Musik in der Welt zu erzeugen, bringt Gefahr, Liebe, und Abenteuer ins Spiel. Die Delphine nehmen charmante und feine Persönlichkeiten an während der göttliche Leitfaden eines Allwissenden Erzählers der Geschichte das wichtige Thema für die heutige, menschliche Welt erleuchtet und somit den Leser hypnotisiert. Tui's Zweck "Das Retten der Delphine" ist nie der reizenden Geschichte auferlegt aber sorgfältig für den Prolog verwahrt. 0 von 0 Kunden fanden die folgende Rezension hilfreich. Delightfully different Von mountainmama This is a totally original story - of deities who allow spirits to return to life to achieve their 'purpose.' *Ripple* has been returned to earth as a dolphin, and we follow her quest to fulfill her destiny - an odyssey of seeking and learning to bring order out of chaos. Beautifully written and impeccably edited, Tui Allen creates an underwater world filled with wonder, courage, and love. Very imaginative and deep; this story is a veritable symphony to the soul. Simply lovely.

Kurzbeschreibung Twenty million years ago, powers of the universe allow an ancient spirit one final chance to achieve a mysterious intellectual purpose, by incarnating it as a dolphin on the planet Azure (Earth.) The spirit is born as *Ripple*, a vulnerable female with a seeming tendency to insanity. She falls for the scarred fighter-dolphin *Cosmo* and love inspires her to achieve her purpose. But before she can communicate her discovery, she must overcome terrific odds among the terrors and tragedies of the ancient oceans. If she can succeed, the universe will change forever, and allow dolphins to profoundly affect the yet-to-evolve human race. *Ripple* is an inspirational story in the Visionary and Metaphysical Fiction genre. It can also be firmly classed as mind/body/spirit fiction, (MBS) or marine environmental fantasy. The print version of this unique New Zealand book was selected by the NZ Society of Authors to represent it at the Frankfurt Book Fair in 2012, New Zealand's year as "Country of Honour" at the fair. *Ripple* is already attracting critical acclaim from reviewers around the world and is often favourably compared to Jonathan Livingston Seagull. Now translated and traditionally published as a hardcover print edition in the Czech Republic and Slovakia. Note: For two months from the 22nd April 2016 all *Ripple* author royalties will be donated to the Whale and Dolphin Conservation Society. But Tui grew up in an Auckland sailing family and her first marital home was a small wooden yacht, the classic H28 design *Patricia*. In her early married life, she sailed the South-Pacific in *Patricia* with her husband Bill Simpson and came face to face with many cetaceans who inspired the story of *Ripple*. Tui has worked as a primary schoolteacher and a web designer. Her previous published work consists of stories, picture books and poetry for younger children, articles for newspapers and magazines, mainly on sports topics and of course many web sites. Tui is very motivated about conservation issues particularly marine conservation. *Ripple* is her first novel.
