**Von Eric Van Lustbader : Robert Ludlum's The Bourne Sanction: The Bourne Saga: Book Six (Jason Bourne)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Robert Ludlum's The Bourne Sanction: The Bourne Saga: Book Six (Jason Bourne):

KundenrezensionenHilfreichste Kundenrezensionen4 von 5 Kunden fanden die folgende Rezension hilfreich. The Best

of the Lustbader Books to Date About Jason Bourne Von Donald Mitchell This is the third book written by Eric Van Lustbader about Jason Bourne. As I've commented before, this isn't the same Jason Bourne as Robert Ludlum wrote about. If you want that Jason Bourne, skip this book. It's also different from the wonderful ninja stories that Eric Van Lustbader is known for. So don't look for that either. If you are interested in meeting and following a new Jason Bourne, read on. If you do decide to read *The Bourne Sanction*, I strongly suggest that you read *The Bourne Betrayal* first. The characters and the situation won't make much sense to you otherwise. I suspect that you will see this book as a one or two star effort. As the book opens, there's a deadly secret being passed along to help foil a dangerous terrorist plan. The U.S. intelligence community is in great turmoil, and there are lots of people who want to grab the reins of power. Jason Bourne has resumed his David Webb persona and is teaching again. Events quickly conspire to intertwine those plot threads into a huge conflict that imperils even Jason Bourne. Like *The Bourne Betrayal*, this book is too long. But it's only 150 pages too long, rather than 200 pages too long. That's progress. The book's strength can be found in some of the action scenes and in the plot twists that are deeply embedded into the early Bourne stories. The book's weaknesses are that it moves too slowly, Bourne is barely present as a personality, and there's a little too much assuming that readers have read the last two stories. I get the sense that Mr. Lustbader is beginning to get his sea legs under him in writing about Jason Bourne. I suspect the series will continue to get better from here. But what do I know? I'm just an optimist who is rooting for this series to work. I would miss the idea of Jason Bourne too much otherwise.

That's what I also should have done - just left it there! Eric van Lustbader has written some good books but this was utter trash. This is nowhere in the class of a Ludlum.

Kurzbeschreibung Jason Bourne is back in the forthcoming major motion picture starring Matt Damon and Alicia Vikander. Go back to where it all began for Bourne in his original adventures. 'Watch your back 007 - Bourne is out to get you' - Sunday Times University professor David Webb - forever caught between two identities - is still haunted by the splintered nightmares of his former life as Jason Bourne. Soon he finds himself embroiled in a CIA operation to hunt down a terrorist organisation, and is plunged into the deadliest and most tangled assignment of his double life. With his own side trying to take him down, all the while an assassin as brilliant and damaged as himself is getting closer by the minute... Pressestimmen "Don't ever begin a Ludlum novel if you have to go to work the next day." (Chicago Sun Times) "Fasten your seatbelts as the story of Jason Bourne takes off a few seconds into this audio suspense/thriller and continues all the way through. It is an excellently executed and wonderfully recorded book.... Jeremy Davidson has done a superb job....engaging and entertaining." -ArmchairInterviews.com on THE BOURNE BETRAYAL
