Von Robert Ludlum, Gayle Lynds : Robert Ludlum's The Paris Option (Covert-One) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Robert Ludlum's The Paris Option (Covert-One):

Kundenrezensionen Hilfreichste Kundenrezensionen 0 von 0 Kunden fanden die folgende Rezension hilfreich. Sehr spannend geschrieben Von Stefan macht einfach Spaß dieses Buch zu lesen. Sehr spannend geschrieben. Als Empfehlung: das ein oder andere Englischsprachige Buch von Ludlum's lesen. 0 von 1 Kunden fanden die folgende

Rezension hilfreich. Gayle Lynds-the paris option Von Ein Kunde This books wasn't as good as many other Ludlum books I have read but it still gripped me, though it took me 3 weeks to read it :) However, this books is not written by Ludlum, or at least not everything!!! For example, the terror attack on 11/09/01 is mentioned in the book. Gayle Lynds is doing a good job but she's not as gifted as Ludlum. concerning the plot: A molecular dna computer has been robbed by terrorist and Covert One agent Jon Smith struggles to retrieve the computer back, otherwise the world will change dramatically-to the worse! It's worth 3 stars.

Kurzbeschreibung An excellent COVERT-ONE thriller from the bestselling writing team - Robert Ludlum and Gayle Lynds. A fiery explosion shatters a laboratory building in Paris. Among the dead is Emile Chambord, one of the leaders in the global race to create a molecular - or DNA - computer. Unfortunately, Professor Chambord kept the details of his work secret, and his notes were apparently destroyed in the fire. Then suddenly US fighter jets disappear from radar screens for a full five minutes and there's no explanation; utilities cease to function; and all telecommunications abruptly stop, with devastating consequences. This is not the work of a clever hacker - only the enormous power and speed of a DNA computer could have caused such havoc. Covert-One agent Jon Smith flies to Paris to investigate. Following a trail that leads him across two continents, he uncovers a web of deception that threatens to reshape the world for ever... From Publishers Weekly After a 30-year career that engendered dozens of bestselling novels of international intrigue, Ludlum died in the spring of 2001, just before publication of *The Cassandra Compact*, the second title in the Covert-One biotech series. This third Covert-One opus co-written with spy novelist Gayle Lynds (*Mosaic*), who also worked on the first Covert-One epic, *The Hades Factor* reprises the over-the-top, almost parodic tone of its predecessors with more antics from undercover agent army Lt. Col. Jonathan Smith, M.D. A horrific explosion destroys the Paris lab of computer genius Emile Chambord on the eve of his breakthrough in the development of a revolutionary molecular DNA computer that has the ability to control virtually all the world's computerized operations. Overnight, military satellites, international data banks and worldwide communications threaten to crash. Faced with the enormity of this malevolent power play, Dr. Jon Smith sets out to find the perpetrators. Arriving in Paris just as Chambord's daughter, Threse, is being abducted, Smith trails the terrorists to Toledo, Spain. Just when this thrilling setup promises a return to vintage Ludlum, Smith's corny pals, CIA spook Randi Russell and British MI6 spy Peter Howell, pop up and they all go bumbling across Europe to avert a nuclear holocaust. Gainsaying the old saw, "You can't take it with you," Ludlum bequeaths yet another ghostly burlesque of his fabled plotting talents. Copyright 2002 Cahners Business Information, Inc. Pressestimmen Ludlum is light years beyond his literary competition in piling plot twist upon plot twist, until the mesmerized reader is held captive... [He] dominates the field in strong, tightly plotted, adventure-drenched thrillers. Ludlum pulls out all the stops and dazzles his readers. Chicago Tribune Ludlum stuffs more surprises into his novels than any other six pack of thriller writers combined. The New York Times Reading a Ludlum novel is like watching a James Bond film. Entertainment Weekly Welcome to Robert Ludlum's world... fast pacing, tight plotting, international intrigue. The Plain Dealer Robert Ludlum is the master of gripping, fast-moving intrigue. He is unsurpassed at weaving a tapestry of stunningly diverse figures, then assembling them in a sequence so gripping that the reader's attention never wavers. The Daily Oklahoman Don't ever begin a Ludlum novel if you have to go to work the next day. Chicago Sun-Times If a Pulitzer Prize were awarded for escapist fiction, Robert Ludlum undoubtedly would have won it. Ten times over. Mobile Register An exciting medical-military thriller that moves at a rapid pace to its climax... an exciting new series. Midwest Book A pop hit... that should bounce right up the bestseller lists. Kirkus s Gripping... robust writing and a breakneck pace. Boston Herald
