Von Ruby Fielding : Rogue Male: A Highland shifter romance (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Rogue Male: A Highland shifter romance (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Scottish werewolf storyVon ErinThis book I got for an honest review. Because it was a volume 2 book I first read the last Alpha.Was that necessary? No not at all. You can read this book as a stand alone and are not missing anything when

you haven't read the first book in this series. But if you like this one, read the other one to find out more about Billy and Jennys story. This story almost begun as a young adult werewolf story for me. Skye having feelings for Iain, driving all the way up to the Scottish Highlands to meet up with him again. They met at university in Edinburgh. Skye is falling in love with Iain, but he is being a lad who can't handle it all. Not his feelings for Skye not being at home again after university and not having a job. When he does find a job people are warning him that Mr. Carr is a bad guy. Of course Iain doesn't listen. Sometimes in the book I wanted to kick his ass and tell Iain to grow up. That means for me it is a good story when a story makes me think that way. The story takes it time before there is some erotic action between Skye and Iain. But when it happens it is real hot! And it is written in a realistic way. I could see it happening that way, with his mum downstairs and them trying to be not too loud. But afterwards, sigh. Great read. Lovely setting (I just have a big weak spot for Scotland), a story with shifters in it and a love which becomes stronger and stronger. The only question is will Iain finally grow up and act like a man who he needs to be to protect the people who mean a lot to him? For the answer on that you have to read the book.

Kurzbeschreibung She'd always known he was a bit of a rogue, but what if it was worse than that? So much worse... Skye Parker wasn't that girl. She never had been. The one who chases love. The one who puts romance ahead of everything else. The one who would travel the length of the country in response to a throwaway online comment and a whole lot of wishful thinking. Until now. Iain Logan is most definitely that boy. The wild one. 'Trouble' is not so much his middle name as something engraved on his heart. He's a young man with secrets, too. Secrets that make him hold everything at a distance, even the girl who might just be the love of his life. When Iain finds evidence that wolves are running wild near his Scottish Highlands home after an absence of close to three centuries it's a chance to prove himself - if only he can get people to believe him. But as old friends rebuff him and the dark truth unfolds, Iain has some tough choices to make. Choices with life-changing consequences. It would be madness for Skye to fall for him. Dangerous. But sometimes madness is the most sensible thing of all. Rogue Male: a gripping paranormal romantic thriller from the author of Last Alpha. THE TRILOGY IS COMPLETE: Be sure to check out the other books in Ruby Fielding's Highland shifter romance series, Last Alpha and Snow Wolf.
