Even better than the 1st book!Von AmberPlease note that even though I pre-ordered this item months ago through .de I have still not recieved my copy! It has still not been sent even though this book was offically released on April 1st!!!I am very grateful to the author who actually sent me a copy of her book. It got to me from the States faster than could get it to me!!! So what is the hold up .de???*****Faythe is back and trouble follows her where ever she goes! She has made some big decisions and also made her fair share of mistakes. Trying to prove herself to her father is her main cause of concern right now but she also has to show her worth to the Pride and herself.Murdered toms are turning up in the Pride territory and it doesn't take long for Faythe and her other Pride members to see that the

murders are connected. If that wasn't enough there are strippers going missing on the same route. Coincidence? or do the murders and disappearances have something to do with each other? With all that taking up Faythe's energy she has nothing left over to use on Marc. Marc is not only Faythe's partner off duty but also on duty so the relationship is touchy as it is. Throw in an ex-boyfriend and Faythe starts to get jumpy which results in some changes nobody will believe. If the first book in this series 'Stray' was amazing this 2nd book can only be Super amazing! It isn't very often that a 2nd book is so much better than the first but in this case it has been worth the wait and it was an enjoyable read. I love the were-cats and Faythe is a female to be reckoned with. She is strong, hard and knows what she wants and does her best to get it. Her Pride are a great family unit who are always there for her. I love the way they interact and savour any new details about them. This is clever, has a lot of edge and is tasty and needs to be devoured in one go. There is nothing else in this genre that comes even close to being as good as this shape shifting series. Well done Rachel and thanks for getting the 3rd part 'Pride' out in Autumn (especially with that ending!). It isn't such a long wait...but I would love to have it now!!

Kurzbeschreibung I know that better than most. Since rejoining the Pride, I've made big decisions and even bigger mistakes: the kind paid for with innocent lives. As the first and only female enforcer, I have plenty to prove to my father, the Pride and myself. And with murdered toms turning up in our territory, I'm working harder than ever, though I always find the energy for a little after-hours recreation with Marc, my partner both on and off duty. But not all my mistakes are behind me. We're beginning to suspect that the dead are connected to a rash of missing human women and that they can all be laid at my feet—two or four, take your pick. And one horrible indiscretion may yet cost me more than I can bear....

Synopsis As Faythe struggles to prove herself as the Pride's only female enforcer, trouble follows her as murdered toms begin turning up in the Pride's territory, killings that could be linked to a series of disappearances of human women.
