**Von Kaitlyn Davis : The Shadow Soul (A Dance of Dragons Book 1) (English Edition)** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Shadow Soul (A Dance of Dragons Book 1) (English Edition):

Kundenrezensionen Hilfreichste Kundenrezensionen 0 von 0 Kunden fanden die folgende Rezension hilfreich. 3.5 stars Von Tomke ShnI am not sure about this book. It seems rough around the edges. The characters and sometimes the writing style were not very defined. The author seems young and inexperienced. The story gets better towards the end

but the reader is forced to buy the next volume if he wishes to know how the story continues. No real ending, I dislike this in a book. I also feel like the author bings to much into the story; spirits and dragons and body-possessing shadows. Furthermore, and maybe I am just too old to overlook it, the author seems to know horses only from cartoons. Ember, the prince's horse behaves more like a mixture between dog an llama than a horse. Overall, I am not very impressed by the book, but there is some potential in the story. I just wish it weren't split in so many volumes...
