**Von James D. Doss : The Shaman's Bones (Charlie Moon Series)** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Shaman's Bones (Charlie Moon Series):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich.  
Memorable, gripping and haunting - can't put this book down.Von Ein KundeMr. Doss writes in a style that gives the reader vivid mental pictures of what is happening with each of his characters. I have not enjoyed any murder mystery this much before. The Shaman's Bones integrates humor, murder, and mystery with emotion and Ute mysticism and lore.Anyone who likes Tony Hillerman's books will LOVE the Shaman series by James D. Doss. I recommend that anyone who wants to step into Mr. Doss' world, begin with the first book in the series (The Shaman Sings) and work their way through the series. Warning: If you read one, you'll have to read them all!0 von 0 Kunden fanden die folgende Rezension hilfreich. Entertaining, a real page turner!Von Ein KundeJames D. Doss does not write a sleeper! This is entertaining and keeps one in suspense as we wait for Charlie Moon to solve the brutal murder of a friend's wife. Of course, the friend is the first suspect as he is her husband. A little child moves in with "the shamen" and brings joy to her simple existence. A really good book.

KurzbeschreibungA women of the Tohono O'otam tribe has been savagely -- and ritually -- murdered in Wyoming, outside the jurisdictions of Granite Creek, Colorado, Police Chief Scott Parris and Ute tribal policeman Charlie Moon. But a brutal, unprovoked assault by the suspected killer on one of Parris's detectives -- and the dark, unsettling visions of Charlie's shaman aunt, Daisy Perika -- are pulling two dedicated lawmen and an aging Native American mystic into the hunt.Daisy's dreams of raining blood tell her that more will die. Despite the healthy skepticism of his good friend Moon, Parris is inclined to heed the shaman's dire warnings. But the trail of a murderer is leading them all to perilous and unexpected places, where secrets of past betrayals and treacherous tribal politics are buried, and where the pursuit of a stolen Power has turned some men greedy and hungry. . .and deadly..deFor mystery buffs who like a little magic mixed into their mayhem, James D. Doss serves up the third in his series of regional mysteries set on Native American reservations. In The Shaman's Bones, Doss's hero, tribal policeman Charlie Moon, and a Shoshone shaman named Blue Cup are both on the trail of a murderer, but their methodology is vastly different. While Charlie employs the usual police procedures to solve the crime, Blue Cup sends his spirit after the killer. What happens next makes for a spooky, gripping read.From BooklistDaisy Perika, a Ute shaman in Colorado, has a dream full of "dreadful apparitions," which soon materialize as murder, drug dealing, and the theft of a sacred object--crimes that local police chief Scott Parris and his colleague Charlie Moon, a Ute himself, solve with an intriguing mix of mysticism and police procedure. The writing in this third book in Doss' shaman series is eloquent, almost poetic, with lean and often dryly humorous dialogue. Doss vividly describes an overlooked corner of the West, a rigorous yet beautiful place with stunning mountains and canyons. This book feels more mystical and spiritual than the work of either Tony Hillerman or Margaret Coel, whose novels are set in similar settings; yet Doss' strong plotting skills keep the book solidly grounded in the mystery genre. The story drags a bit toward the end, but the reader is rewarded by an unexpected finale that will remind readers of Arthur Conan Doyle's wonderful story, "Silver Blaze." John Rowen
