Well.....Von -KundeI normaly like the books of Susan Mallery , but this one was in my opinion just boring and a little bit annoying ,why ?For example because the main caracter is completly insecure and is always saying that she is sooooo not beautiful compared to all the others .And there also isn't very much going on with her and the guy until youth read about 80% of the book .There were some little jokes , which I really enjoyed , but there were also alot of little things which annoyed me exept the ones i already mentionedI would'nt buy it again .0 von 0 Kunden fanden die folgende Rezension hilfreich. should read first. This one is not quite as good, because you can guess what will happen. Roughly, this book is about Cleo, who falls in love with prince Sadik but she has no hopes for a future with him. I don't want to spoil the fun so I won't say anymore about how their relationship develops. It's an easy, funny, romantic and still entertaining book, very good for a lonely night. Just read it!!!
