**Von Catherine Coulter : The Sherbrooke Bride: Bride Series** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Sherbrooke Bride: Bride Series:

KundenrezensionenHilfreichste Kundenrezensionen2 von 2 Kunden fanden die folgende Rezension hilfreich. Coulter's Best Book Yet!Von TinaThis was by far the best Catherine Coulter book I have read to date. Thankfully, there were no rape sequences which I had begun to think was a Coulter staple. Alexandra was a delight to read. She deserved the title of heroine for simply dealing with all the idiots in her life, her husband included at first in my opinion. She was strong without coming across as a pain. She was funny, intelligent, and courageous.What annoyed me throughout the book though was the incredible superficiality of so many of the characters. If one more person gushed over Melissande I was going to vomit. There is no human alive who could possibly be so attractive and shallow at the same time. I'm glad Tony brought her around but people's reaction to her irritated me, mostly Douglas'. And I hated how disparaging

everyone was to Alex and some of the comments made to her - especially by Douglas - were horrid. They made her sound like a dishrag which she did not appear to be. All in all, a great book. Even though I think Alex should have made Douglas suffer a little for his earlier treatment of her. Coulter's best as well as the best of the Brides series. 0 von 0 Kunden fanden die folgende Rezension hilfreich. Couldn't draw me in Von Georgina Cooper The start of this book was okay, but after that, the hero just said and thought totally stupid stuff, which made it hard to respect him. In one of the first conversations with the heroine he states: "I am going to beat you." But not as joke, neither does he say it, because he is really angry and almost going to do it. So he just comes across silly. If you cut half of his lines and thoughts, the book would be much better. That the book is mostly written from his perspective makes matters even worse. Not only do we have to put up with his silly thoughts all the time, but we also almost never experience the heroine's thoughts, WHEN things happen. (As a result you can't really feel a thing for her.) Only afterwards, in some of her very few View Point scenes, do we get a short overview, sometimes weeks after the event she comments on. I have tried to like lots of novels by CC, and I did it again, because her plots really have a lot of potential, but after this, I think I will not try again. Three Stars, but only because I was able to at least finish it. 0 von 0 Kunden fanden die folgende Rezension hilfreich. Best of the "Bride" series Von Ein Kunde Not exactly earth-shattering literature, but for what it's worth, "The Sherbrooke Bride" was surprisingly entertaining, and had a lot more depth than the badly-conceived "Hellion Bride" (If marital rape makes you swoon, then I highly suggest getting some therapy) and the rather annoying "Mad Jack." The plot \*does\* have an air of contrivance, but hey, it's a romance novel; who really reads them for the originality of the plot? Douglas as a hero is, well, more three-dimensional than most, and he meshes quite well with Alexandra, who as a heroine is fun and touching at the same time. At times sexy, funny, and (natch) romantic, their relationship was interesting enough that I read the book in one sitting. Oh, and did I mention that the sex is hot? Number one clue that you're reading a Coulter romance... ;-)

Kurzbeschreibung The first book in Catherine Coulter's beloved Bride series. Douglas Sherbrooke, Earl of Northcliffe, marries the wrong woman - only to find himself haunted by a bride of an entirely different kind. From Publishers Weekly In a display of what poses as wit in this Regency novel, the first of a trilogy, Douglas Sherbrooke, Earl of Northcliffe, tells his wife Alexandra that she is "as amusing as a boil on a backside." Unfortunately, he's right. Worse, bestselling romancer Coulter's (Earth Song) lame story is no more amusing. The tale begins when Douglas is dispatched to France on a secret mission for the British government just as he is to marry the beautiful Melissande Chambers. He sends his cousin Tony Parrish to act as his proxy during the ceremony, but the bride and substitute groom fall in love and elope. They return to carry on with the proxy wedding, making Melissande's younger sister Alexandra the bride. Douglas is predictably annoyed when he returns and arrogantly makes this very clear to his unwanted wife. He rebuffs Alexandra's attempts to earn his favor until she wises up and tries to run off; then he decides to keep her. To prevent things from getting too cozy Coulter resurrects the poorly developed spy subplot and has Alexandra kidnapped. Douglas and Tony take off in pursuit, evil is vanquished and everybody who is supposed to be happy ends up that way. Copyright 1992 Reed Business Information, Inc.
