**Von Peter Jones : The Shield (English Edition)** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Shield (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen1 von 1 Kunden fanden die folgende Rezension hilfreich. nur ein AuswegVon KuferIch habe beide Bcher sehr genossen und konnte sie nicht weglegen.Sciencefiction, ganz klar.Ohne Spoiler zusammengefasst: Die Welt die wir heute kennen hat sich vernichtet (die ngste aus dem kalten Krieg sind wahr

geworden)Die berlebenden haben eine neue Welt in Frieden und Harmonie erschaffen.Es gibt eine zentrale Regierung, deren Mitglieder von den Shields geschutzt werden.Mnner, die als Kinder von ihren Familien genommen werden und als Kampfmaschinen ausgebildet werden.Diese friedliche Welt, die in den Weltraum expandierte, wird verwunden, angegriffen und versklavt.Die Aliens erinnern mich an die Geschichte im Film Independence Day.Eine berlebende Truppe der Menschen aus dem All beginnt einen Kampf zusammen mit dem einzig berlebenden shield gegen die Aliens.Im Gegegensatz von Amerikanern, werden atomwaffenfreie Europser die Lsung der Bedrohung nicht im Einsatz von Atomwaffen gut heien,aber auch hier wird eine Ideologie weitergetragen, die die Vernichtung der Feinde mit allen Mitteln gut heit, auch wenn das bedeuten knnte, dass die Erde und ihre Bevlkerung unter geht.Sonst ist die Geschichte spannend geschrieben. Es kommt sogar eine sehr zarte Liebesgeschichte vor, die sogar alle sexualfeindlichen religsen Lager gut heien knnten, weil .... nur ja lest selber.0 von 1 Kunden fanden die folgende Rezension hilfreich. Lacking a bit of contextual depth, but a good readVon -KundeThe story is lacking a bit of contextual depth and the idea of a human race that almost abandoned any agression, military conflict and crime is a bit too much.But the story is nonetheless tantalising and entertaining.There are lots of misspellings though. But it's for free. So what?Nice ebook for military sci fi fans.
