Von David Clement-Davies : The Sight (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised The Sight (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen3 von 3 Kunden fanden die folgende Rezension hilfreich. Mysterious, stunning, heartwrecking; beautiful Von s.crane@brocom.de More gripping than Watership Down, more compelling than many other sword-and-dragon-fighting tales. And very definitely not only a children's book but also for readers of all ages who like to travel unknown paths while becoming enchanted by a book! But caution! Once you open this book you will run with the stags at night, you will see the moon with different eyes and feel the freedom of the forest in your heart, calling out to you! Clement-Davies wrote a wonderful tale which I stumbled upon by pure

chance shortly before Christmas while looking for a "magical" book to entertain me during the holidays! And what a treasure I found! I'm looking forward to more books by him! 1 von 1 Kunden fanden die folgende Rezension hilfreich. breathtaking stunning work! Von Kiara Vestigium To say some words in English first: I don't like dogs and I don't think I like olves, but this book made me change my opinion. It is one of the best animal fantasy books I have ever read (believe me I have read a lot). and to make it short, read the other comments, they express exactly what I would say just one addition: This book is about love and hate, truth and lies, black and white, light and darkness, trust and betrayal, past, present and future and above all finding to oneself (to be exact the main character does it). Und jetzt ein bisschen mehr in Deutsch: The Sight von David Clement-Davies ist eines unter vielen Bchern. So scheint es zumindest am Anfang. Ich hab mich in die ersten Seiten nur schwer rein gefunden und musste 3x neu anfangen, was ein sehr groer Fehler war. Es mag die ersten 50 Seiten vielleicht ein unscheinbares Buch sein, aber schon bald beginnt die Geschichte ber die weie Wlfin Larka und ihre Familie. Alles beginnt damit, dass die bse Wlfin Morgra das Rudel in der Steinhhle verflucht. Schon bald erfahren sie, dass Larka mit ihrer Fhigkeit und ihrer Familie in eine Prophezeiung verwickelt ist. Der Fluch und die Prophezeiung zwingen das Rudel aus ihrem Revier auszuziehen und ungewohnten Gefahren entgegen zu Blicken. Dabei werden alte Verwandte besucht, aber die meisten, die der Familie begegnen sterben sehr bald und David hlt sich nicht lange damit auf sie zu retten. Am Ende opfert Larka sich mehr oder weniger unfreiwillig, auch wenn das heit sich mit dem Feind aller Tier zu verbnden - dem Menschen. Das ist der Verlauf der Geschichte, aber eigentlich hat sie einen viel tieferen Sinn. Um es kurz zu machen, The Sight geht um Liebe und Hass, um Licht und Dunkelheit, um Lge und Wahrheit, um Vertrauen und Verrat, um Macht und Machlosigkeit, um Vergangenheit, Gegenwart und Zukunft, um Menschen und Lera (Tiere), um Nachtragen und Vergeben, um Einsicht und Starrkpfigkeit, um Sehen und um das ich" zu finden. David hat eine sehr schne Sprache und schreibt mit viel Feingefhl und Philosophie. Er verbindet die reale Geschichte mit seinem Fantasy Roman und schafft so ein Meisterwerk sondergleichen. Dadurch, dass er das Buch sehr bndig geschrieben hat alla In der Krze liegt die Wrze" ist es immer Spannend und nie langweilig. Meiner Meinung nach steht in diesem Buch kein Wort zu viel drin und ich empfehle es sehr zu lesen. Noch bin ich mir im unklaren, wann ich den zweiten Teil Fell" lesen werde, da der 1. Teil trotz Drama doch sehr schn und abgeschlossen aufgehrt hat, aber ich werde ihn sicherlich lesen, denn wer kann schon einem Buch auf seinem ungelesenen Bcherstapel widerstehen, wenn er genau wei, dass es wieder so gut wird, wie das erste. 1 von 1 Kunden fanden die folgende Rezension hilfreich. Wonderful Wolves Von Fox Phoenix Pandora Unfortunately enough only few writers dare to dream up stories in the genre of animal fantasy nowadays. With The Sight animal lovers and fantasy fans alike have reason to celebrate. Undoubtedly, Clement-Davies's book about wolves is one of the best fantasy books of recent times. It combines the mystical landscape of Transylvania (sorry, no vampires or werewolves there) with the secret lives of the wild relatives of our tail-wagging favorite pets. Even if you have some prejudices about wolves or canine creatures, give this book a try: You won't deny it because reading the Sight means entering a wolfy wonderland of magic. On the psychological side, this book might even help you understand life at least a little bit. Personally, the wolves' wisdom described by Clement-Davies helped me through a difficult phase of my life and gave me new hope. Furthermore, The Sight might be a great choice for anyone interesting in protecting our planet and its wildlife for the story makes you understand how important animals are. It even hints on the ancient relationship between man and beast. What's the difference between human and animal? Is there a difference anyway? How can we peacefully coexist with one another? I hope the sequel, Fell, will be as enjoyable and encouraging.

Kurzbeschreibung In the wilds of Transylvania a legend is about to be born, as a wolf pack race through the bitter snows, to find a birthing den for two cubs, one black, one white. In the birth of Fell, and his sister Larka, a race is on to defeat the wicked Morgra, and to come to terms with the extraordinary powers of The Sight. A book both for adults and children, with powerful and complex themes, new author afterword and introduction to Phoenix Ark Press..de In an epic tale of good and evil, legend and history, and the blessing and curse of an extraordinary gift of the Sight (an ability to see through others' minds and into the future), David Clement-Davies obliges the many fans of Fire Bringer with a new fantasy novel. The Sight features a Transylvanian wolf clan faced with the terrifying changes brought about by Morgra, a bitter she-wolf determined to fulfill an ancient legend in order to have supreme power over all Vargs (wolves). Young Larka, a white wolf pup born with the Sight, embarks with her brother Fell and the rest of her family on an extraordinary quest for truth and salvation, with shocking consequences that even the most astute reader may not foresee. Clement-Davies's multilayered and elaborate plot will keep young readers riveted for hours on end, drawing on Christianity, fairy tales, and mythology in a colossal allegory and cautionary tale for its human audience.
