BoringVon Ein KundeBased on those 5 star reviews, I bought the book, and I was SO disappointed! I could have lived

with the incredibly beautiful but annoyingly naive heroine and her great fashion sense (electric blue for a redhead, PLEASE!), but that misunderstanding - without which the story would have been about half as long - was just too stupid. I don't know why I even bothered to finish reading the book. Definitely not a highlight in the Sandra Brown collection.0 von 0 Kunden fanden die folgende Rezension hilfreich. Californian romance reader said this about The Silken WebVon Ein KundeThe Silken Web is one of my favorites by Sandra Brown and I own almost every book she's ever written. Brown's work combines just the right amounts of decency and steam to form an overall piece that's not trashy, but that is ensured to make your temperature rise. Like to read on your lunchbreak? Rest assured, the covers of Brown's books do not consist of two lovers tearing each others clothes off! This book is about a love so spellbinding, your heart breaks a little along with those of the protagonists, and soars like a bird when love gets back on course. If you want a read to revive your faith in romance, this is your book. Enjoy!0 von 0 Kunden fanden die folgende Rezension hilfreich. Another sexy fictionVon Ein KundeFull of body tingling action. Enough body works to keep you interested, as if the problems of revenge aren't enough to keep to enchanted with this book.
