some of the other reviews here. If you have not read the first part books of the Black Company series at least, don't pick this one up. If you have, read it, but be forewarned: this is one of the darkest books Cook has written yet. The book is sort of an aside to the series up to this point. It answers the questions of what happened to Darling and Raven. Raven has become a tragic figure. He has drunk himself into oblivion for many years straight. His companion begins to keep a journal inspired by Raven's stories of Croaker. Raven, Silent and Bomanz are the main subjects of this journal. Of course something happens to cause Raven to clean up and act the part of the hero to defend Darling, with the usual unusual twist to it. In the meantime, Cook also follows Toadkiller Dog and his sometimes unwilling allies in a purely narrative style. As usual evil is relative and the reader finds themselves favoring one over the other. The reader, like Raven hears rumours and catches glimpses only of Croaker. This is not about the Black Company per se, but rather a wrap up of some characters and their futures and the beginning of a mystery for later. I personally liked the book a great deal, but missed the rest of the Company.

It's an interesting one, as it takes place between two of the earlier books in the series. It's basically a parallel story line, showing events that are briefly mentioned in the other books, but from a different perspective. Don't read this one before you read the first 4 novels in the series - you won't understand what's going on. But if you've read those 4, by all means, get this book - it's simply an excellent novel. Highly recommended!

Along with book two of the Annals, this story delves deeply into that region any man, given the right circumstances, is capable of falling. Cook knows human nature better than any of those 'flowery' authors who tend to over-romanticize the evil villain. True evil remains within the hearts of everyday people...like all of us. Very realistic....

Kurzbeschreibung...embedded in the trunk of the scion of the godtree, it contains the essence of the maddest of the Ten Who Were Taken...The Dominator. Defeated by the Lady and cast from this world, all that was left of him was a foul trace of lingering evil. But the graveyard that was once the Barrowland contains more secrets than dead. All who would possess the power of the Dominator are drawn to the spike. A foolhardy band of thieves is the first to reach it, and a rapacious and malign spirit is unleashed on an unwary world. The forces gather, sides are drawn, and mortal men can only die as the Dark Lords battle for domination.
