I couldn't stop reading and have just bought the sequel.For everybody who likes fantasy books - read it.0 von 0 Kunden fanden die folgende Rezension hilfreich. THE SIXT DISCIPLINEVon norbanNot Quite a science fiction Story but an interesting read about very different cultures getting mixed by force. Not bad.

KurzbeschreibungRan-Del Jahanpur is a warrior of the Sansoussy Forest, trained in both the mental and physical Disciplines of his people. He thinks he's prepared for any danger the forest might hold, but his skills prove useless when he's caught in a hi-tech trap. Soon Ran-Del finds himself in a city so alien it might as well be another worldmachines speak, vehicles fly, and his captors' weapons can inflict pain without touching him. Every time Ran-Del tries to escape, he's foiled by a technology he doesn't understand. As terrifying as the city is, his kidnapper, the enigmatic Baron Hayden, exudes a jovial affability that worries the Sansoussy even more. What can such a powerful man want with a Sansoussy warrior, who can neither read nor write and knows nothing of city ways? The Baron's daughter Francesca clearly knows more than she's saying, but Ran-Del's psy sense tells him only she's being truthful, not what she's thinking. And it's only after it seems that Ran-Del has escaped the city and its dangers, that he finds out how thoroughly he has been caught.
