Well done butVon starbooksIHNot quite as satisfactory as I expect ed, mostly because of the end, but all in all it was an Ok finish for the war against the Hocklyn and the AI empires. The whole book has an all will end soon and many will die

feeling to it which gives it a bit depressing tenor, however we are closer to our main character s again, which is good. Even Hedon is allowed to be human and not just a legendary hero. I would have preferred to have real end to all so far established problems and a completely new storyline for the upcoming books and room for exploration and new AI development s done by Kathie, in short new wonders to discover like we had in the first book s. However I Do understand the author s motivation to do as he did. Myself, I like the new discoveries in Science Fiction more than just one space battle after the other. Since the first books covered that so well, I am a bit dissapointed in the development of the whole series. Although I will give the next book a chance because I would want to see what the author comes up with for the Five.0 von 0 Kunden fanden die folgende Rezension hilfreich. Endlose Textbausteine Von Eggert Ehmke Die Story ist eigentlich interessant, gelegentlich auch spannend. Die Lesefreude wird aber getrbt, wenn immer wieder hnliche Szenen mit fast den gleichen Worten beschrieben werden. Etwas mehr Phantasie wre dem Autor zu wnschen.0 von 0 Kunden fanden die folgende Rezension hilfreich. Gute Unterhaltung Von Peter Altekrgger Super Unterhaltung, nicht alles originell, vieles vorhersehbar - aber...gut geschrieben, spannend und suchterzeugend... Mehr davon Mr. Weil...Military SF wie man sie gern hat...

Kurzbeschreibung USA Today Best Selling Author The Federation is pushing the Hocklyns steadily back, but they still vastly outnumber the Humans and their allies by hundreds to one. Fleet Admiral Hedon Streth has to defeat them before they develop newer and more deadly weapons. In a bold move, Hedon comes up with a daring plan to attack the Hocklyn home worlds. If he succeeds, the war will be over and if he fails then the Federation will face imminent defeat. The AIs have withdrawn to the center of the galaxy where they are working on their Great Project. Once completed it will send out a hyperwave that will eliminate all organic life in the galaxy. Can anything be done to stop this impending apocalypse? This is the exciting and epic conclusion to the Slaver Wars series. Over 160,000 copies of the series have been sold.
