Gefllt mirVon hgsNach dem ich am Anfang dieser Serie geglaubt hatte in ein Perry Rhodan Remake geraten zu sein, hat diese Serie doch sehr rasch einen eigenstndigen Handlungsverlauf genommen und mit dem vorliegenden Roman einen

Hhepunkt erreicht. Serie und Roman lesen sich kurzweilig und ich freue mich schon auf die Fortsetzung.0 von 0 Kunden fanden die folgende Rezension hilfreich. He did it again! Von starbooksIHGreat, absolutely great! Go on, I m hungry for the next instalment. Well written space battles, interesting Strategie s and just lovable character s. A very interesting new ally, Ariel at her best , the fab five still together and master strategist Hedon on his way to put the Hocklyns in their place, and get a closer look at the AIs. One of the best series ever written and even today already part of our space history. And fabously a new creative story line. I honestly must say I for myself have Seen enough of space Marine s and such stories. This here, as I have said before, this is what Science Fiction is all about.0 von 0 Kunden fanden die folgende Rezension hilfreich. another great book by weil Von NSWAT This was a great follow on to the previous novels. Cant wait for the next book to be released. A classic space story with good vs bad keeps the pages turning!

KurzbeschreibungThe cryosleep chambers are beginning to fail. Surveillance of Hocklyn space has revealed that the Hocklyns are thirty years ahead of their projected schedule and will soon reach human occupied space. War could break out any day if something isnt done. The human leaders suggest a daring plan to buy them the additional time they need to strengthen the Fleet, as well as the defenses protecting their worlds. A First Strike deep into Hocklyn space might just buy the human worlds the extra time they need to finish their preparations for all out war against the Hocklyn Slave Empire. For nearly four hundred years, Admiral Hedon Streth has slept waiting to lead the human race against the evil from the center of the galaxy. Now that time has arrived. Can Hedon and the other sleepers lead Earth and her colony worlds to victory over the Hocklyns or are they destined to become slaves or even worse, see their worlds destroyed?
