Von Sable Wolfe : The Spark of Life (The Enemy In Me Book 1) (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised The Spark of Life (The Enemy In Me Book 1) (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. kurz und knackigVon Vanessa RichertAlien und Mensch versuchen unter widrigen Umstnden zusammen zu sein. Schn noch ein romantisches Buch zu lesen in der ein Alien noch Alien sein darf und nicht wie so oft ein leicht vernderter Mensch.Etwas kurz, aber auf dem besten Wege noch besser zu werden. The last hour of gann war das letzte gute Buch

doch jetzt freue ich mich auf den zweiten Teil.

KurzbeschreibungThe world is at war.Humanity is at its wits' end, desperate for a solution to the death and destruction the enemy from beyond the stars has unleashed. In an attempt to even the odds, an underground cell of scientists experiment on alien prisoners of war, hoping to create a hybrid super soldier. But just how far will they push the boundaries to end the genocide? And what will happen when they discover one of their own could have the heart of a traitor? A steamy take on one possible future, and a journey of erotic exploration and experience for one geneticist, who learns much more about the alien invadersand herselfthan she could have anticipated. Romance, sex, drama, and mad scientists in a world gone mad.
