Didn't Want It To EndVon Mary MoritzNear the end of "The Spell" I tried to slow down and savor it. I didn't want the story to end. I didn't want to leave the world the author had conjured up of Dannai the witch and Lucas Caige the werewolf of her dreams (literally), as well as all of the other witches, warlocks, werewolves, etc. who unite with and against them. I made myself slow down and focus in greater detail on the world of the story. It is a world so vibrant and visual, with enchanting (and enchanted) characters at the center of paranormal mayhem. The setting is palpable, with a constant sense of the ocean, rolling, wondrous fog, forests of redwood trees, bonfires and starlit and moonlit skies. I can't imagine a more perfect location for this story or a more perfect time of year than the fall.I reread some scenes to experience the thrill of them again. It was like rewinding a great bit in a movie, or jumping right back in line for a

roller coaster. Over a week later I can still see sexy Lucas Caige maneuvering his Harley down a curved foggy road; Dannai sitting by a redwood tree in her pajamas in the middle of the night; the angry wolf in Lucas briefly subdued by the glistening tears in Danny's eyes; Jason Alberich's "tent" with sconces and black velvet; magic floating down like pixie dust. I can recall pieces of all of Killough-Walden's novels long after I read them and that is what I think makes them great. She is as much a conjurer as a storyteller, creating all of these unique worlds so completely that reading her novels almost feels a bit like being under the influence of a transport spell. She has begun a new storyline at the end of "The Spell," and I can't even imagine all it will lead to in the next novel. I only know that I will be along for the ride.

Kurzbeschreibung(The Spell is the New York Times bestselling third book in the Big Bad Wolf series.)Dannai, who is also known as the Healer, has begun dreaming of werewolves. She'd always been able to hide the fact that she was a dormant, using her magic to shield the sweet, promising scent from the alphas she's been forced to work around. But now that they've invaded her dreams, her world has really been turned upside down. For, though every dormant dreams of her intended mate - Dannai is dreaming of two wolves, not one. And neither one of them is good news. One is a notorious killer. The other is Lucas Caige.Lucas Caige is a man with a haunting past. A warlock took his brother from him fifty years ago and he's spent his life outrunning that dark magic. But fate has a way of throwing sand in your gears - and just when Caige thought he could forever leave behind the magic that brought pain to his life, his path crosses that of the Healer. Dannai unwittingly casts her spell over him the moment he lays eyes on her. She's stunning, she's kind, and everything about her wreaks havoc on his senses. She's also magic incarnate. But if Dannai thinks that's going to stop him from doing everything in his power to make her his mate, the little witch has another thing coming.*****Heather Killough-Walden is a California native currently living in Texas with her husband and child.
